*Hi Friends*

*Here is the New Year we were looking forward to! This is a new road; we never walked here before. We are excited about the challenges and opportunities that will be ours this year. Our Goal is to be a better company in 1979, than we have ever been before.*

*This is our New Year's wish for all of you, as we walk this new road together. That the challenges and opportunities of your life will make you a better person, too. This will make 1979 a Happy and Profitable year for all of us.*

*May the New Year bring you Health, Happiness and Prosperity.*
