

Keystone Degree

(Continued from Page 171)

during the state FFA's mid-winter convention in Harrisburg.

George is a senior at the Tulpehocken High School majoring in production agriculture. As a Tulpehocken FFA member for four years, he served on many committees and presently is the student FFA Advisor. His major farming program is dairy production. George also had corn projects each year and participated in the Berks County FFA corn contests.

George is a member of Saint Johns UCC and Sunday School. He is a member of the Marion Grange and the Stouchsburg 4-H Dairy Club.

George has shown his animals at the local fairs and southeastern FFA dairy shows. He participated in dairy judging at the fairs and FFA week at Penn State. His future plans are to be a dairy farmer.

of Richland R1, will be receiving the Keystone Farmer Degree during the state FFA's mid-winter convention in Harrisburg.

Daryl is a senior at Tulpehocken High School majoring in agriculture production. He is a member of the Tulpehocken FFA and serving as vice president of the local chapter. His major project is dairy. He owns a herd of 25 animals which he keeps on his parents farm, a large dairy operation where Daryl plays an important role in the operation of this dairy enterprise.

Daryl is a member of Altaiaha Lutheran Church and also a member of the Stouchsburg 4-H Dairy Club.

Daryl has shown his animals at most of the local, southeast, and state dairy shows. He also has judged dairy cattle at the local fairs and at FFA week at Penn State.

His future plans are to be a dairy farmer.

DARYL HARNISH
Tulpehocken
Daryl Harnish son of Mr. and Mrs. Daniel J. Harnish

Dan Mosteller

DAN MOSTELLER Twin Valley

Dan Mosteller is the 17-year old son of Mr. and Mrs. Joseph Mosteller, Morgantown. Vice president of his Chapter, he is one of two Twin Valley FFA members who will receive their Keystone Farmer Degree in 1979.

He has been very active in the FFA, serving as treasurer in 10th and 11th grade and vice president in his senior year. He also served in many committees.

In addition, he has been active in FFA volleyball tournaments, project book work, Pennsylvania Farm Show, livestock judging, and swine judging.

He also attended the National FFA Convention in Kansas City, Mo. this past November and the PAFIC conference at Shippensburg in July.

His project work has been with pigs and bees since 9th grade and he works for Morgantown Associates.

Instant Milk
Instant nonfat dry milk is actually a dairy product. The fat and water have simply been removed from pasteurized fluid milk. This process produces dissolvable flakes that are activated instantly when water is added.

OMAHA STANDARD COMBINATION BODIES AND HOISTS . . . they go together.

The Standard of the Industry

Without question, the toughest all-hardwood livestock and grain combination body around (available in 40" and 48" side heights) High grade woods and hardware, combined with superior craftsmanship assure you of a farm body that will outlast your truck. Laminated edge-grain fir flooring forms the platform core, while riveted hardwood side stakes line each platform side. Omaha Standard offers solid or vented sides. Vented sides come with vent slats which remove quickly to let livestock breathe easy on the long haul. Standard features on the hardwood body include cross chains, anti-spread bars, double deck rails, metering grain gate and full-height sliding livestock gate. With features like these, it's easy to see why Omaha Standard is the industry leader.

Steel body shown, with optional 12" tip tops, which are available on 28", 40" and 52" steel sides in all lengths.

Put an Omaha Standard Combination Livestock and Grain Body to work for you. Durability, dependability and ease of conversion make these truck bodies a solid investment.
