ECONOMY POWER KING
sets a fast pace on tough jobs

Big acreage heavy loads rough going—Power King carries through without missing a beat. The reason? 12, 14 and 18 hp engines applied through Power King's all-gear drive deliver almost 100% power to the big drive wheels. That's why you move right along with a 60" mower, load fast with a 1/2 ton bucket, bulldoze, clear a 48" path of snow in a hurry.

American-built Power King is a machine, not a toy! Automotive clutch, transmission, differential 1 1/2" axles for example.
