

ARE YOU BOTHERED BY PROFIT-ROBBING STARLINGS?

Starlings cost you big money in terms of feed wastage. 1,000 starlings consume at least \$100 worth of feed (in addition to what they spoil) in a single winter. Flocks of many thousand birds are common.

Starlings are known carriers of a number of profit-robbing diseases including TGE (Transmissible gastroenteritis).

JOIN A STARLING CONTROL PROGRAM IN LANCASTER COUNTY USING

PURINA STARLICIDE COMPLETE

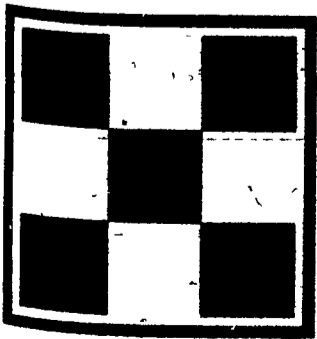

STARLICIDE ADVANTAGES:

- Pellet size is selective to starlings.
- Contains a painless, slow acting poison.
- Proven effective.
- Dead starlings are not dangerous to other animals. Only 10% of the lethal compound is retained in the starling body.
- Use levels of the product are low.

SUGGESTED CONTROL PROGRAM:

- Order Starlicide now for delivery in early January.
- Bait with Starlicide on the 2nd day following a snow on frozen ground. Best results are obtained when all producers in an area bait on the same day.
