

Tenderfoot... the Tough, Tested and Proven "pig-saver" floor.

PATENT
PENDING

PERMA-BOND* KOMFY-KOTE CONSTRUCTION

A tough acid-resistant
plastic compound
permanently bonded to
a rugged steel mesh

* An exclusive bonding
process developed by
Tenderfoot

- Superior Traction prevents injuries and abrasions.
- Cushioned comfort reduces stress.
- Self-cleaning. No holes or crevices to harbor bacteria.

HOW LONG WILL THEY LAST?

First produced in 1975, Tenderfoot was tested in farrowing pens for 1½ years before being marketed. These original floors have been in constant use ever since WITH NO APPRECIABLE WEAR! Today's Tenderfoot floors have 6 advantages over the original pieces

1. 3 times more coating.
2. Tougher vinyl coating.
3. Extra-strength steel.
4. Treated to resist bacteria & fungi growth.
5. Improved Perma-Bond processing.
6. Strict quality control.

Constant research, development and quality control continues at the Tenderfoot factory and at the nearby 650-sow operation where the original 1975 Tenderfoot floors are still going strong

How long will a Tenderfoot last? No one knows. The very first ones produced have withstood heavy use since 1975 with no appreciable wear. The floors produced today are 6 ways better than the first ones. On the basis of these facts it seems safe to say that any concern over the durability of Tenderfoot flooring is unnecessary.

Mr. and Mrs. Bradley Eisiminger, Waynesboro R3, had the grand champion Shorthorn bull, "Woodside Clyde," a junior calf. Seen with the Eisimingers is Keith Moore, left center, representing the American Shorthorn Association, and the judge, Robert Douthit, far left. The Eisimingers' also showed the grand champion Shorthorn female.

Shorthorn champions chosen

HARRISBURG — Mr. and Mrs. Bradley Eisiminger, Waynesburg R3, showed the grand champion female Shorthorn beef cow at the 63rd Farm Show, "Woodside Carol Rose 2nd," an early Spring yearling heifer. The same animal was judged junior champion Reserve grand champion, "Mapleview Star IC," a junior yearling, was exhibited by Joan Peebles, Volant R2. The same animal was the show's reserve junior champion.

The Eisimingers' also captured the grand championship in Shorthorn bull classes at the Farm Show with "Woodside Clyde," a junior calf. The grand champion also was the show's calf champion.

Reserve grand champion and junior champion, "MSF Tillerman 781," a late Spring yearling bull, was shown by David C. McElhaney of Hookstown.

Another McElhaney entry, "Packard Thomas West," a two-year-old, was senior champion. Reserve junior champion, "Mapleview Silver Chief," a late Spring yearling, was shown by Mapleview Ranch of Volant.

"Woodside Champagne 4th," a Spring bull calf, was the reserve calf champion and shown by Mr. and Mrs. Eisiminger.

BODMIN NU-PULSE SYSTEM

INV. NO. 49920

"the non-conventional milker" with the non-conventional vacuum stability graph. The milker that creates all new milker standards.

THE BODMIN NU-PULSE MILKING SYSTEM

- Sells for 30% less than any other Milker System.
- Save 70% in operation costs.
- Guaranteed 5000 cow milking per set of rubber liners (up to 9000 reported).
- Can be used on all milking systems giving you complete 360° visibility.
- Minimizes cow stress.
- Eliminates electrical pulsators, controllers and pulsation lines.
- Eliminates milker fall off and inflation creep.
- Milks at 10 to 12.5 inches of mercury vacuum at teat end.
