### GOT TORQUE AMPLIFIER, CLUTCH AND PRESSURE PLATE PROBLEMS WITH YOUR IH TRACTORS?

There is a company in the West that has been rebuilding T.A. units for several years now and having excellent results. The basic reason for their success is the sprag clutch they use. In the areas where they have been selling, they even have IH dealers that use this unit almost entirely.

- (1) They feel this sprag clutch is giving less problems than even IH's new beefed up unit because of the design of the sprags.
- (2) This unit can be bought as individual parts which is many times all you need or as a complete renewed unit ready to set in your tractor.
- (3) They have a warranty up to 2000 hrs., or 3 years . . . and . . .
- (4) They don't cost any more and to most buyers they are costing less than from the big company. They offer same day shipment by UPS or Greyhound bus. They also have a program on rebuilt Dynalife clutches and pressure plates.

If you want more information write me and I will get the literature to you. Raymond B. Leaman, RD #1, Willow Street, Penna. 17584.
