ALL AIR-COOLED DIESEL ENGINES ARE NOT CREATED EQUAL.

It's easier to call an engine "heavy duty" than it is to build it that way. Superior performance and long life are the result of special alloy heads, integral lube coolers, oil-cooled pistons, and the Deutz highly efficient axial-flow cooling blowers. These features plus 100% direct air-cooling result in substantial fuel savings—20 to 40% according to users—and far less pollutants. Deutz air-cooled diesels—5 to 500 bhp.

- We stock rebuilt: starters, generators, injectors, for Deutz
- We have complete road service since 1955
- We supply free application engineering
- We have facilities for any mechanical fabrication required to apply new Deutz diesels

3 NEW BIG-FIELD PERFORMERS JOIN THE POWERFUL MF LINE

In big power, Massey-Ferguson offers a model matched to your needs — from 100 to 190 horsepower. Heading up the lineup is the MF 2805, the world's biggest 2-wheel drive tractor, and the MF 2775. Now joining that power-packed pair are the new MF 2675, MF 2705 and MF 2745. All five of these field champions offer the blend of power, performance and reliability that is a must in today's farming business.

- For top economy and reliability you get famous Perkins diesel power.
- Select a standard 8-speed manual or optional 24-speed transmission with 3-speed shift-on-the-go.
- Put all that power to work in the quiet comfort of the total-vision MF operator's module — with more glass area than any other cab on the market.

- Six-way adjustable deluxe seat, tilting/telescoping steering wheel, warning light monitor and hand controls make operation comfortable, convenient and easy.
- A full range of MF options and accessories — from extra long axles for axle-mounting duals and triples to an AM/FM/CB radio — assure that you get a tractor matched to your specific needs.

Personalized MF financing, parts, and service available.
