

Livestock & Grain Bodies

by OMAHA STANDARD

BIGGER THAN EVER, BETTER THAN EVER!

Precision engineered roll formed 52" high steel sides provide greater capacity at less cost.

We've built rugged truck bodies for over 50 years and today we're continuing that tradition. That's the reason you can't make a better investment than an Omaha Standard steel or hardwood farm body.

- One-piece roll formed steel sides with built in tarp rail. Available in 28", 40" and 52" extra-capacity heights ... all with maximum corrugation for maximum strength.
- 40" and 48" hardwood sides also available ... the truck body Omaha Standard built its reputation on.

- The toughest platform in the business — laminated wood, smooth steel or tread plate.
- Easy-conversion hardwood upper racks ... greater flex and life than steel fold down racks.
- A full line of rugged gates ... all engineered to make your job easier.

Look to Omaha Standard for the best. Our equipment takes all the punishment you can dish out ... and comes back for more, year after year. We stake our reputation on it.

OMAHA STANDARD - We've Been A Part Of Successful Farming & Ranching For Over 50 Years
