

Early Booking Special!!!

Fit Sila-Prime in your forage program this year—and we'll fit you with a famous Stetson hat FREE!

Sila-Prime is the Probiotic fermentation aid that boosts feed value in hay, haylage, corn silage and high-moisture grain.

Its combination of dried, viable *Lactobacillus* bacteria:

- Aids in lowering pH to control heating, retain moisture and reduce spoilage.
- Reduces the danger of nutrient burn-out so hay can be put up at higher moisture levels than usual.

A major benefit of using Sila-Prime is simple economics. Under normal conditions, Sila-Prime significantly increases the dollar-value of hay, haylage and silage.

Dollar-Value Of Forage Crops Per Ton

And, Sila-Prime is an extra-dry granular product that won't corrode, cake or bridge in mechanical applicators.

Book your 1979 Sila-Prime requirements before May 30, 1979, and get a FREE Stetson with each 750-pound order. Six popular styles to choose from.

To find out more about Sila-Prime and how you can get a FREE Stetson, see one of the Mar-Gro dealers listed below, or mail coupon.
