

Master Mix complete hog feeds, also "AAA rated."

Master Mix complete feeds are also formulated to the Available Amino Acid concept, proven in feeding trials with 10,000 hogs. These high potency feeds produce pigs with less back fat—an important factor to producers marketing on a grade and yield basis.

AAA Pig Grower.™ Feed from 50 lbs. to 150 lbs.

AAA Swine Finisher.™ Feed from 150 lbs. to market weight.

Primer 1™ **Baby Pig Pre-Starter.** Supplements sow's milk with energy, rather than duplicating the protein energy in sow's milk. Promotes early feed consumption that results in heavier pigs at weaning. Lowers cost of gain. Produces more uniform litters. Also reduces baby pig scours. Mini pellet form was preferred in tests with baby pigs 4 to 1 over larger sizes. Feed while pigs are nursing starting at 5-7 days until weaning or until 6 weeks old.

Primer 2 Pig Starter. Also in preferred mini pellet size. Capitalizes on early growth foundation provided by Primer 1. Encourages further growth and development. Feed from weaning to 50 lbs. body weight.

AAA Gest-Aid.™ Formulated for the breeding herd to provide proper nutrition to gilts, sows and boars during their reproductive life. Controlled energy levels are seasonally varied to meet energy needs of the breeding cycle. Feed 4 lbs. per head per day 11 days after breeding to one month prior to farrowing. Then

increase to 6 lbs. Feed 6 lbs. until one week prior to farrowing.

AAA Lact-Aid.™ Feed 6 lbs. per head per day starting 7 days before farrowing and during lactation. After farrowing, gradually increase to full feed for remainder of lactation. Feed 6 lbs. daily 7 days prior to and until 10 days after breeding.

Ask your feed dealer if your present rations are formulated to the AAA concept. If not, it will pay you in many ways to investigate all Master Mix swine feeds.
