recieved trophies for being the champion steer showman and champion steer fitter. The trophies were sponsored by BHM Tractor Co. of Annville, and Keller Bros. Buffalo Springs, respectively. Thomas Arnold, son of Mr. and Mrs. Leon Arnold, Lebanon R7, was presented a trophy by Gordon Layser for having

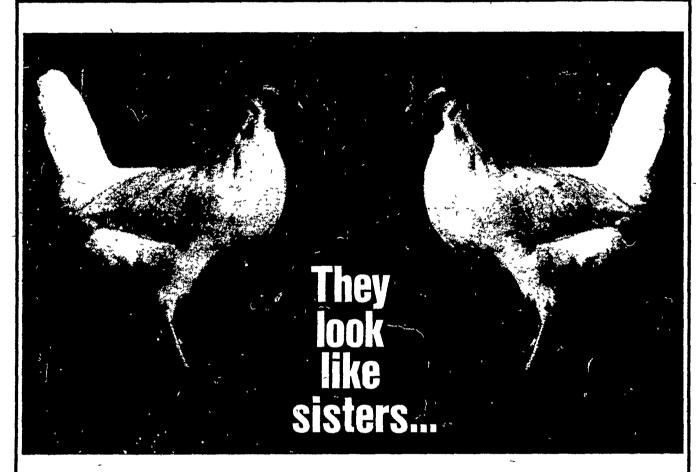

the reserve grand champion steer. Jed Hoffer, son of Mr. and Mrs. Lester Hoffer, Lebanon, recieved a trophy sponsored by Bernard Morrissey of Agway In-Jed had this dustries. champion buddy steer. Three members recieved awards for their steers which were chosen as farm show selections from the (Turn to Page 32)

Lebanon County 4-H Livestock Club members were honored February 13 at a banquet held at the Schafferstown Fire Hall. Receiving trophies for their outstanding steer project work were (left to

right) Elaine Houser, George Wilson, Bomgardner, Bonnie Arnold, Thomas Arnold, Leon Arnold, club leader, and Jed Hoffer.

but Agway research has shown that their nutrient requirements may vary significantly

Agway can now offer feeding programs tailored to many commercial layer strains.

It has been well established that meat birds have different nutrient requirements than layers.* Now, Agway research has gone a step farther It has demonstrated that different strains of the same breed of commercial layers have different nutrient requirements. The trials show that production can be improved with a feeding program that's tailored to the needs of a particular strain

When three commercial strains of the same breed were tested on two Agway feeding programs, here's what happened

PERCENT HEN-DAY PRODUCTION **DURING A 392-DAY LAYING TRIAL**

Agway Feeding	Same Breed, Commercial Strain		
Program			
	A.	В	С
1	67 3	65 5	723
11	71 5	70 7	70 0

A little pencil work makes it apparent that the difference in total production in one of today's large commercial houses can add up to thousands of dozens of eggs during the laying period of a given strain

Agway research is continuing to develop feeding programs that provide, without excesses, the nutrients your favorite strain needs for optimum production Such research will help you, as a commercial producer, bring more eggs to market at a cost that will provide you a greater return

If you would like to know more about the possibilities of increased production through a tailored Agway feeding program, contact your Agway Poultry Enterprise Serviceperson As a first step. call your local Agway store

Big acreage. heavy loads rough going - Power King carries through without missing a beat. The reason? 12, 14 and 18 hp engines applied through Power King's allgear drive deliver almost 100% power to the big drive wheels. That's why you move right along with a 60" mower, load fast with a 1/3 ton bucket, bulldoze, clear a 48" path of snow in a hurry.

American-built Power King is a machine, not a toy! Automotive clutch, transmission, differential, 1½" axles, for
