

AGWAY

Agricultural Buildings

Built to your order
for profit-minded
efficiency

Features:

- Pressure-treated Koppers Columns
- Super Temper Rib Alcoa Aluminum Roofing
- Pre-painted Republic Rigid Rib Steel Siding available in your choice of 4 colors
- Kwik Frame & Pre-hung Aluminum Clad Passdoors by HNP
- Key-hole door track with painted cover by Starline
- Constructed for 30 PSF total load.

An Agway building means this to you:

- Economy
- Fast Erection
- Durable Protection

Agway free stall barn engineered for expansion

Agway utility building versatile on-farm storage

Agway confinement barn for individual cow attention

Dairy farmers to get \$11.12 for milk

NEW YORK, N.Y. — Dairy farmers supplying milk plants regulated under the New York-New Jersey marketing orders during March will be paid on the basis of a uniform price of \$11.12 per hundred pounds or 23.9 cents per quart. Market Administrator Thomas A. Wilson, who announced March's price, also stated that the uniform farm price was \$11.57 per hundredweight in February 1979 and \$9.65 per hundredweight in March 1978. The New York City area milk strike, in effect during the entire month, reduced the March 1979 uniform price by 14 cents per hundredweight. The uniform price is a marketwide weighted average of the value of farm milk used for fluid and manufactured dairy products.

The seasonal incentive fund removed a total of \$1,768,482.34 or \$.20 per hundredweight from the dairy farmers' uniform price for March. Deductions for this fund will continue through June and will be returned in the August through November uniform price calculations.

The total amount of milk received from the 17,658 dairy farmers supplying the New York-New Jersey Marketing Area was 884,241,172 pounds during March 1979. This was more

than 18.2 million pounds above last year. The gross value to dairy farmers for milk deliveries was \$100,594,551.66. Mr. Wilson explained that this included differentials required to be paid to dairy farmers but not voluntary premiums or deductions authorized by the farmer.

Regulated milk dealers (handlers) utilized 370,826,734 pounds or 41.9 per cent of the total amount of milk for Class I. The Class I milk is used for fluid milk products such as homogenized, flavored, low-test and skim milks. For March 1979, handlers paid \$12.80 per hundredweight, or 27.5 cents per quart, for this milk compared with \$11.16 a year ago.

The balance of the milk, 58.1 per cent, was used to manufacture Class II products including butter, cheese, ice cream and yogurt. For this milk the handlers paid \$10.54 per hundredweight.

The uniform price is based on milk containing 3.5 per cent butterfat. For March 1979, a differential of 13.1 cents was applied to the price for each one-tenth of one per cent that the milk tested above or below the 3.5 per cent standard.

All prices quoted are for bulk tank milk received within the 201-210 mile zone from New York City.

GLICK'S
ROOFING & SPOUTING
Handler & Installer Of
BAKED ENAMEL TIN ROOFS
Colors: Turquoise, Red, Olive Green, Rust, Brown, White and Plain.
Sizes: 5 ft. up to 36 ft. All in one. Also cut to exact length.
