

Maryland 4-H'er selected for international program

COLLEGE PARK, Md. - Susan E. Schley of Myersville, Frederick County, will leave April 30 to spend six months in the United Kingdom as an International 4-H Youth Exchange (IFYE) delegate. Her stay in the British Isles is part of a youth cultural exchange learning process.

Since 1948, youth delegates from the U.S. have been chosen under this program to live briefly with families in foreign countries. One of their goals is to help clear up cultural misconceptions. Originally tabbed as the International Farm Youth Exchange, the program underwent a slight name change in 1974 to reflect its combined farm and city emphasis.

Each IFYE delegate is expected to live with several host families in the country where assigned. The educational exchange has an informal structure. Delegates do not receive extensive formal training.

Maryland's 1979 delegate has been helped to prepare for her trip by Mrs. Claudia H. Payne, an Extension 4-H and youth program leader at the University of Maryland in College Park. And she had a weekend pre-departure briefing from the international programs office of the National 4-H Council in Chevy Chase (Montgomery county).

Like others before her, Miss Schley will have certain responsibilities. These include sending back six essays on her experiences while in the host country and being available for speaking engagements throughout the state upon her return in late October.

Each year, one or two

Maryland residents are chosen to be IFYE delegates. The 1978 delegates were M. Ann Carroll of Gortner (Garrett County), who went to Trinidad and Tobago, and Jerome D. ("Jerry") Myers of Westminster (Carroll County), who went to Norway.

Both completed their overseas stays in December 1978. Since then, Myers reports that he has filled 72 speaking engagements, appearing before school assemblies, service clubs and professional organizations.

The IFYE competition includes interviews and essays. Applicants must have been involved in the 4-H program and between the ages of 18 and 25. Final approval is given by the

international program division of the National 4-H Council. Trip expenses are financed by the National 4-H Council and the Maryland 4-H Foundation. No public funds are used.

In return, Maryland will be receiving two International 4-H Youth Exchange delegates during 1979. A young man from West Germany will be arriving on May 16, and a delegate from India is scheduled to arrive on June 27.

Each foreign visitor will spend time with three to four host families in the Old Line State before moving on the repeat the "live-in" experience in another state—usually in another region of the U.S.

Susan Schley, this year's

VEAL CALVES: Very active 3.00 to 5.00 higher. Tops, to 122.00.

IFYE delegate from Maryland, is a 1974 graduate of Middletown High School and a 1976 graduate of the nursing program at Frederick Community College.

Since becoming a Registered Nurse, Miss Schley has lived in Baltimore and worked at Johns Hopkins Hospital. She has also been a part-time student at Essex Community College.

Susan was a Frederick county 4-H member for 10 years, and she is presently a 4-H leader in the Myersville

area. She's on the board of the Maryland Sheep Breeders Association. And she was the state lamb and woad queen in 1975-76.

Ever since her 4-H days, Sue has wanted to be an International 4-H Youth Exchange delegate. After completing a five-month stay with families in the United Kingdom, she will have about a month of free time.

She expects to do some bicycle-riding around the British Isles—and lots of sight-seeing. She may even have the opportunity for a

get-together with some other young residents of the Old Line State.

Maryland's national champion 4-H dairy cattle judging team is scheduled to compete June 20 in an international contest during the Royal Highland livestock show near Edinburgh, Scotland.

Members of that team include Dennis Patrick, 18, of Lisbon (Howard County); Kevin Stiles, 17, of Boonsboro (Washington County), and Patricia Kahler, 16, of Keymar (Frederick County).
