Kearns chosen Star Agribusinessman

ELVERSON -- Tom Kearns, son of Mr. and Mrs. Ô James Kearns of Morgantown, has been chosen as the Berks County FFA Star Agribusinessman for 1978-79. Tom has served as Berks County FFA secretary for the last year, as well as treasurer of the Twin Valley FFA Chapter.

Tom was presented a \$50 Savings Bond as County Star Agribusinessman at the County FFA banquet He was chosen from among the Star Chapter_Agribusiness= men of other local chapters. Tom served as treasurer

of the Owen J. Roberts Chapter before his family moved to Twin Valley. He

has participated in public cattle at several local tails speaking contests in both Chester and Berks County, as well as serving on the Parliamentary Procedure teams of both chapters He has attended the Pennsylvaniz Association of Farmer Cooperative Institute at *Shippensburg twice. Tom exhibited dairy

of lower-priced dairy feeds from Beacon.

Introducing Beacon quality at an excellent price ... specially formulated for a specific purpose. Beacon's new EX-CEL dairy feeds.

EX-CEL is regularly available in six varieties – 16%, 20% and 24% protein formulations ... with and without Urea.

Its energy sources are basically the same as most of our dairy rations .. and the same goes for its mineral and vitamin fortifications.

What sets it apart from others, however is EX-CEL's unique balance of-energy and fiber levels --- specially formulated to save you money.

Beam, Max compete in poultry judging

ELVERSON - Two Twin Valley FFA members participiated in the recent Tri-County FFA Poultry Judging contest sponsored by Weavers Poultry and Weaver's Quality Eggs of New Holland and Lancaster. Twin Valley students in this contest were Mike Beam, son of Mr. and Mrs. Paul Beam of Honey Brook and Ed Max, son of Mr. and Mrs. Richard Max, Honey Brook R3. Poultry judges had to complete nine skills required of poultry producers

Each contestant had to judge a class of four laying hens and give a set of oral reasons on this class, place a

class of 4 pullets (chickens just starting to lay eggs) judge a class of 10 production hens as to keep or cull by sight only, sight judge 10 pullets for keep or cull, identify 20 poultry diseases or parasites, grade a class of eggs for internal quality by candling them, grade in-ternal quality of a class of broken out eggs, grade exterior quality of eggs and grade a class of 10 chicken carcasses. The first eight places in this contest were captured by Garden Spot (New Holland) students. Weaver's also sponsors the National FFA Poultry Judging Contest at Kansas City in November.

Seed case settled

NEW YORK - Michael-Leonard, Inc., Grant Park, Ill., has paid \$2,125 to settle a case involving alleged violations of the Federal Seed Act. The act, ad-ministered by U.S. Department of Agriculture officials, is a truth-in-labeling law designed to protect farmers and consumers who buy seed.

Clyde R. Edwards, seed official with the depart-ment's Agricultural Marketing Service (AMS), said the firm, in agreeing to the settlement, neither admitted nor denied the charges.

The case involved seven shipments of Kentucky bluegrass and lawn seed keep required records.

Kunberton Fulztown and

Allentown a well as the

Southeastern Pennsylvania

Tom served on Chapter

dairy judging teams at the

Kutztown and Allentown

Fairs and the Pennsylvania

All-American Dairy show.

He participated in the state

FFA agricultural mechanics

contest at Penn State in June

of 1977. In 1978 he par-

ticipated in the state dairy

showmanship contest Tom

also represented the chapter

in the tractor driving contest

at the Kutztown Fair. At-

tendance at the National

FFA Convention in Kansas City last November was one

of the highlights of Tom's

Another highlight was

when he recieved the

Keystone Farmer Degree at the Pennsylvania Mid

Winter Convention. At the

state project book contest Tom took first place out of

175 books in the Work Ex-

perience Category. Tom's

major projects were dairy

heifers, field corn. veal

calves, vegetable garden

and working for the last six

years on Cream Valley

Farms, a 450 acre dairy

farm on which his respon-

sibilitys are milking, raising

calves plus all aspect of field

Tom's plans after high

school are to run for state

FFA office in June and to

become a herdsman on a

dairy farm until he gets his

work.

own farm.

FFA Datty Show

Elverson R1. Roger is a junior vocational agriculture student at Twin Valley High

chairman of the Twin Valley FFA Dairy Chain Calf committee announced the

award of this year's calf to

Roger Stoltzfus, son of Mr.

and Mrs. Ralph Stoltzfus of

mixtures to Pennsylvania, South Dakota, Florida, Maine, Minnesota, and Virginia in 1975 and 1976. The alleged violations, while not the same for all shipments, were false labeling as to the test date and percentage of seeds that would germinate; presence of noxious-weeds seeds in excess of what's allowed; failure to label the name and rate of noxiousweed seeds; failure to test for germination within five months before interstate shipment; and failure to

Stoltzfus receives dairy chain calf ELVERSON - Doris Mast,

School. The chain calf was originally provided by former chapter President Nevin Mast. The calf Roger received came from Doris, who had received the last chain calf. Roger will show his calf and within three years return another to the chapter, to be awarded to another FFA member.

CONSTRUCTION

A tough acid-resistant plastisol compound permanently bonded to a rugged steel mesh

* An exclusive bonding process developed by Tenderioot

HOW LONG WILL THEY LAST?

First produced in 1975, Tenderfoot was tested in farrowing pens for 1½ years before being marketed These original floors have been in constant use ever since WITH NO APPRECIABLE WEAR! Today's Tenderfoot floors have 6 advantages over the original pieces

- 1 3 times more coating.
- 2. Tougher vinyl coating.
- 3. Extra-strength steel.
- 4 Treated to resist bacteria & fungi growth.
- 5 Improved Perma-Bond processing.
- 6. Strict quality control.

- Superior Traction prevents injuries and abrasions.
- Cushioned comfort reduces stress.
- Self-cleaning. No holes or crevices to harbor bacteria.

Constant research, development and quality" control continues at the Tenderfoot factory and at the nearby 650-sow operation where the original 1975 Tenderfoot floors are still going strong

How long will a Tenderfoot last? No one knows The very first ones produced have withstood heavy use since 1975 with no appreciable wear. The floors produced today are 6 ways better than the first ones On the basis of these facts it seems safe to say that any concern over the durability of Tenderfoot flooring is unnecessary.
