GOT TORQUE AMPLIFIER, CLUTCH AND PRESSURE PLATE PROBLEMS WITH YOUR IH TRACTORS?

There is a company in the West that has been rebuilding T.A. units for several years now and having excellent results. The basic reason for their success is the sprag clutch they use. In the areas where they have been selling, they even have IH dealers that use this unit almost entirely.

- (1) They feel this sprag clutch is giving less problems than even IH's new beefed up unit because of the design of the sprags.
- (2) This unit can be bought as individual parts which is many times all you need or as a complete renewed unit ready to set in your tractor.
- (3) They have a warranty up to 2000 hrs., or 3 years . . . and . . .
- (4) They don't cost any more and to most buyers they are costing less than from the big company. They offer same day shipment by UPS or Greyhound bus. They also have a program on rebuilt Dynalife clutches and pressure plates.

If you want more information write me and I will get the literature to you. Raymond B. Leaman, RD #1, Willow Street, Penna. 17584.

WITH SPRING BRINGING ON A NEW LACTATION OF COWS . . .

NOW IS THE TIME TO CONSIDER THE BODMIN NU-PULSE MILKER!

The Single Hose Milker That Has No Pulsated Vacuum Line

- Sells for 30% less than any other Milker System.
- Save 70% in operation cost.
- Guaranteed 5000 cow milking per set of rubber liners (up to 9000 reported).
- Can be used on all milking systems giving you complete 360° visibility.
- Minimizes cow stress.
- Eliminates electrical pulsators, controllers and pulsation lines.
- Eliminates milker fall off and inflation creep.
- Milks at 10 to 12.5 inches of mercury vacuum at teat end.

★ This is an excellent Pail Milking Machine for Amish Use.
