GOT TORQUE AMPLIFIER, CLUTCH AND PRESSURE PLATE PROBLEMS WITH YOUR IH TRACTORS?

There is a company in the West that has been rebuilding T.A. units for several years now and having excellent results. The basic reason for their success is the sprag clutch they use. In the areas where they have been selling, they even have IH dealers that use this unit almost entirely.

- (1) They feel this sprag clutch is giving less problems than even IH's new beefed up unit because of the design of the sprags.
- (2) This unit can be bought as individual parts which is many times all you need or as a complete renewed unit ready to set in your tractor.
- (3) They have a warranty up to 2000 hrs., or 3 years . . . and . . .
- (4) They don't cost any more and to most buyers they are costing less than from the big company. They offer same day shipment by UPS or Greyhound bus. They also have a program on rebuilt Dynalife clutches and pressure plates.

If you want more information write me and I will get the literature to you. Raymond B. Leaman, RD #1, Willow Street, Penna. 17584.

THE LEAVES

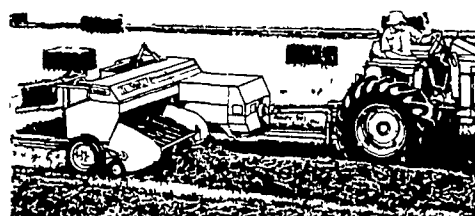

New from HESSTON! New design cuts nine feet plus.

Even in heavy down crops the all new Hesston 1090 Pull Type Mower Conditioner delivers nutrient rich hay. Chain driven reel is cam actuated to pick up and feed hay positively to the non intermeshing conditioner rolls. Spiraled fluting on rolls gives aggressive action to handle tough crops yet deliver top-quality hay. And the 1090 takes a full 9-3 cut, laying a fluffy, fast curing windrow or a wide swath. New features, dependable performance and aggressive conditioning - see the new Hesston 1090.

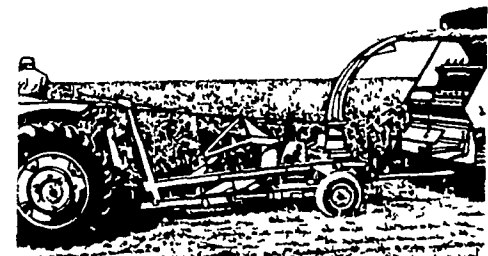

The unconventional conventional baler.

The 4500's continuous flow feeding system keeps hay moving in a steady stream to the 14' x 18' bale chamber. Bales are uniform and evenly flaked. More leaves are left intact so nutrients are preserved. Standard equipment includes flotation tires, wide 61" pickup with gauge wheel, 3 joint PTO and heavy duty hypoid transmission. Twine or wire tying mechanisms and bale thrower (twine model only) head the list of options.

A cut above the rest.

The Hesston 2000-100 Forage Harvester was designed to squeeze more production from 115 PTO hp tractors. Its unique 6 blade "Heart of Steel" cutting cylinder cuts forage like scissors cut paper. Hesston's straight-through crop flow, without cross augers or rotary conveyors, takes less power to cut and move cut forage from header to wagon. And, both row-crop and windrow pickup headers are available. Come in and let us show you the 2000-100.

We have the Hesston 1070 and 1090 Mower Conditioners, set up and ready to go at a very attractive price. Stop in for details.

"SPECIAL" one only, SNB450-1406, Brand New Hesston 4500 conventional Baler, twine model. Full factory 1 Year warranty. Set up & delivered to your farm for \$4,500.00
