SAVE THE LEAVES

**INTEREST WAIVER NOW IN EFFECT TILL MARCH 1980
MODELS 2000-100, 2000-150 ON PULL TYPE HARVESTERS.**

**New from HESSTON!
New design cuts nine feet plus.**

Even in heavy down crops the all new Hesston 1090
Pull Type Mower Conditioner delivers nutrient rich hay.
Chain driven reel is cam actuated to pick up and feed
hay positively to the non intermeshing conditioner rolls.
Spiraled fluting on rolls gives aggressive action to handle
tough crops, yet deliver top-quality hay. And the 1090
takes a full 9 1/2' cut laying a fluffy fast curing windrow
or a wide swath. New features, dependable performance
and aggressive conditioning - see the new Hesston 1090

**The unconventional
conventional baler.**

The 4500's continuous flow feeding system keeps hay
moving in a steady stream to the 14 x 18' bale chamber.
Bales are uniform and evenly flaked. More leaves are left
intact so nutrients are preserved. Standard equipment
includes flotation tires, wide 61" pickup with gauge
wheel, 3 joint PTO and heavy duty hypoid transmission.
Twine or wire tying mechanisms and bale thrower (twine
model only) be at the list of options.

A cut above the rest.

The Hesston 2000 100 Forage Harvester was designed
to squeeze more production from 115 PTO hp tractors.
Its unique 6-blade Heart-of-Steel cutting cylinder cuts
forage like scissors cut paper. Hesston's straight through
crop flow, without cross augers or rotary conveyors,
takes less power to cut and move cut forage from header
to wagon. And, both row crop and windrow pickup head-
ers are available. Come in and let us show you the
2000 100.

We have the Hesston 1070 and 1090 Mower
Conditioners, set up and ready to go at a very
attractive price. Stop in for details.

"SPECIAL" one only, SNB450-1406, Brand New
Hesston 4500 conventional Baler, twine model.
Full factory 1 Year warranty. Set up & delivered
to your farm for \$4,500.00
