## Delmarva forestry seminar is slated

**EASTON, Md.** — Forest and woodland owners on Delmarva are invited to participate in the Delmarva Forestry Seminar to be held on Saturday, September 15 from 10 a.m. until 4 p.m. at the Tidewater Inn in Easton, Maryland. The seminar is sponsored by the University of Maryland Cooperative Extension Service in cooperation with various governmental agencies and commercial forestry companies.

According to Dr. John F. Kundt, Extension Forester for the University of Maryland, the Delmarva Forestry Seminar is for all forest and woodland owners on Delmarva who are interested in the various management options for their property. Topics to be discussed will include forestry assistance, taxation and finances, wildlife and aesthetics of forestland and short term forest commodities including Christmas trees and firewood.

The seminar is divided into a morning and afternoon session with the morning portion dealing with forest management on a general level. After lunch, the afternoon sessions will be intensive workshops on forestry assistance, financial and taxation, wildlife and aesthetics and short term forest commodities. Also featured at the seminar will be exhibits by various commercial forestry related companies.

Cost for the seminar is \$20 per person which includes lunch and reference materials. For more information, contact the seminar coordinator, Extension Agent Don Osburn,

P.O. Box 519, Delmarva Forestry Seminar, Easton, Maryland 21601 or call the Talbot County Extension Office at 301-822-1244 to make your reservations.

## SCS position filled

**WASHINGTON, D.C.** - Secretary of Agriculture Bob Bergland recently named R. M. Davis as special assistant for international science and education and appointed Norman A. Berg to succeed Davis as administrator of the U.S. Department of Agriculture's Soil Conservation Service.

Both actions are effective Sept. 12.

In his newly-created position, Davis will concentrate on natural resource management and conservation activities and the use of science and education to improve life in developing countries. Davis, who will work under the supervision of Dale Hathaway, under secretary of agriculture for international affairs and commodity programs, has headed the Soil Conservation Service since 1975.

Davis is a native of Ambrose, N.D., and a graduate of North Dakota State University, where he earned a B.S. in agricultural education in 1949. He began his SCS career as a soil conservationist in North Dakota in 1952. In 1968, he became the state conservationist in charge of SCS

operations in Pennsylvania. He was named the agency's northeastern field representative in 1972 and became assistant administrator of SCS in 1974. Davis has served extensively as a consultant in soil and water resources and agriculture to the governments of Iran, Afghanistan, Pakistan, Saudi Arabia and Tunisia.

Berg is a native of Burlington, Iowa. A career employee of SCS since 1943, he served in Idaho and South Dakota before moving to Washington, D.C. in 1960 as an assistant to the SCS administrator.

A graduate of the University of Minnesota, Berg holds a master's degree in public administration from Harvard University. He is chairman of the U.S. section, Great Lakes Land Use Reference Group of the International Joint Commission; a member of the secretary's Coordinating Committee for the Soil and Water Resources Conservation Act; and a charter member and fellow of the Soil Conservation Society of America.

# READ

## BULK BINS A Good Investment.

We know your bulk feeding problems, and we know that Read systems can solve them. We stand behind Read quality because Read engineers design for adaptability, economy and long-life. It makes good sense to invest in strength and experience.

Let us show you Read Reliability.

## HEY! HEY! HEY! HAVE YOU BEEN TOSSING THIS IN YOUR MIND: SAVING ENERGY

**NOW IS THE TIME TO ACT!  
ORDER YOUR THERMA•STOR  
"THE ENERGY SAVER"  
BY SEPTEMBER 15  
YOU WILL SAVE \$256**

**We Are Offering The  
DARI-KOOL  
THERMA•STOR  
HEAT RECOVERY SYSTEM**

The perfect example of energy conservation at its best. Designed to fit any system, THERMA•STOR produces all of the hot water your dairy needs, operates without the use of electricity or fuel, and makes and stores 2 temperatures of Hot Water—FREE. As an added feature, the THERMA•STOR can also be used to heat the milk room with forced hot air.

Size	High Temp Section Capacity	No & Size Of Compr	Compressor Oper Time (HR)		
			1½	2	2½
100	33 Gal	(1) 3 H P	150	160	165
		(1) 4 H P	155	165	170
		(1) 5 H P	165	175	180
170	57 Gal	(2) 3 H P	150	160	170
		(2) 4 H P	160	170	180
		(2) 5 H P	170	180	190

Chart shows typical temperatures (F) reached in the high temperature section of the THERMA•STOR HRS as determined by total compressor horsepower and operating time. Temperatures and time shown assume proper refrigerant charge in system, efficient compressor operation and no pre-cooler in system.

### TAKE ADVANTAGE OF:

- Investment Credits
- Less Wear and Tear on Bulk Tank Compressor
- THERMA•STOR Unit Is All Stainless Steel

- ★ Service On All Makes Of Milk Tanks
- ★ All Work Guaranteed
