

# • First year 4-H'ers take honors at York show

By DEBRA STRICKLER  
**YORK-** Two newcomers to the show ring swept the grand and reserve honors at the York Fair's 4-H Beef Show held Saturday, September 8. The show was held at the York Fairgrounds. Wayne Stough, Jr. exhibited the grand champion steer, while John P. Hausner followed with the reserve champion. For both boys, it was a great achievement as first year 4-H members.

Wayne Stough, Jr. showed a Simmental-Cross named "Smokey" to win the grand championship. His steer had been named champion of the

heavyweight division, weighing in at 1255 pounds.

Wayne is the nine year old son of Mr. and Mrs. Wayne Stough of York. He is a member of the York County Baby Beef 4-H Club.

A Polled Hereford exhibited by eight year old John P. Hausner of Dover, RD 2, was named reserve champion of the show. "Sambo" weighed 1045 pounds and had been chosen the champion of the light heavyweight classes.

"Sambo" was born and raised on the Hausner farm operated by John's parents, Mr. and Mrs. John Hausner.

They maintain 30 brood cows on their farm. This was Hausner's first year as a member of the Davidsburg 4-H Club.

The 4-H Steer Show was judged by Erskine Cash of the Pennsylvania State University.

A showmanship competition was held with two brothers taking top honors. Bill Wise won the championship having placed first in the 13-14 year old age division. His older brother Dave earned the reserve championship of the showmanship contest. The Wise brothers are from Spring Grove.

Steve Gross of Manchester exhibited the 945 pound lightweight champion. The reserve lightweight was shown by Emily Livingston of Dover.

The mediumweight championships were awarded to Tim Beck of Seven Valley and Cathy

## VICON'S SPREADER HAS WINNING FORM DOWN THE MIDDLE OR ON THE LINE.

Vicon is the spreader/ seeder with the versatility of an Olympic swimmer. One simple adjustment lets you spread fertilizer just over the root zone of a row — skipping the middles. Then with a change time of less than three minutes, you can do conventional broadcast spreading or seeding with winning results. It's also great for applying chemicals or lime.

The Vicon spreader/ seeder has few moving parts. Non-corrosive polyester or heavy duty stainless steel parts resist corrosion and last longer. Hopper capacities range from 600 pounds to 6 tons.

See the Vicon spreader champ in action at your dealer right away. You'll understand why challengers don't have a chance.
