

Locations chosen for Bergland's public meetings

WASHINGTON, D.C. - Secretary of Agriculture Bob Bergland today announced specific locations for ten public meetings he will hold in November and December to get comments and suggestions on the economic and social issues affecting the structure of American agriculture and rural life.

Locations are:
 -Montpelier, Vt., Nov. 27; Tavern Motor Inn, 100 State St.
 -Fayetteville, N.C., Nov. 28; Bordeaux Motor Inn, 1707 Owen Dr.
 -Huntsville, Ala., Nov. 29; Huntsville Hilton Inn, 401 Williams St.
 -South Sioux City, Neb.,

Dec. 4; Marina Inn, 4th and B Streets.
 -Sedalia, Mo., Dec. 5; Liberty Park Convention Hall.
 -Wichita Falls, Texas, Dec. 6; Wichita Falls Activities Center, 10th and Indiana Streets.
 -Denver, Colo., Dec. 11; Regency Inn, 3900 Elati St.

-Spokane, Wash., Dec. 12; Ridpath Motor Inn, 515 W. First St.
 -Fresno, Calif., Dec. 13; Sheraton Inn, I-99 at West Clinton.
 -Lafayette, Ind., Dec. 18; Howard Johnson's East, 4343 State Rd. 26 East.
 Department officials said the public meeting in

Colorado was moved from Boulder to Denver to make it easier for people using public transportation to attend.

Bergland will preside at each meeting, which will begin at 9 a.m., and adjourn at 5 p.m., local time.

The agenda for each meeting will include statements by pre-scheduled speakers, as well as time for impromptu comments or questions from the audience. Every effort will be made to select pre-scheduled speakers so that a wide range of interests will be represented.

Each scheduled speaker will be limited to five minutes. Longer written

statements may be submitted also.

Requests to speak at the meetings should be sent to Project Coordinator, Structure of Agriculture, USDA, Washington, D.C., 20250. Include your name, mailing address, phone number, organization represented (if any), and a brief identification of the issues you will address. Scheduled speakers will be notified of the time they will appear on the program. Persons unable to attend the meeting should send their comments to the project coordinator. These comments will be made part of the public record.

DION MACHINERIES FORAGE HARVESTER

A Breakthrough In Forage Cutting — Throwing System

MODEL 750 IN STOCK

ITS SECOND TO NONE CUTTING—THROWING SYSTEM AND ITS EXCLUSIVE FEATURES MAKE IT THE FIRST!

YES! THIS IS THE MOST PERFECTED CUTTING THROWING SYSTEM EVER SEEN. Here is the definitive solution to the problems which have always existed in this regard. Compact, the forage is brought between the aggressive rollers of the 750 forage harvester and is neatly cut by the exclusive cylinder head equipped with 8 strong curved knives, remains in suspension then almost at the same time, is rapidly picked up by the fan, which projects it outside in a continuous and synchronized movement. Furthermore, the forage is recut by a second shear bar located between the cutter-head and the fan, thus providing an unexcelled degree of fine and clean cut in any operating conditions. Already in the process of acceleration due to the centrifugal force supplied by the cutter-head the forage remains in suspension as same is running at a higher speed. The forage is then taken away by the fan blades which rush it outside at an incredible speed. Thrown out in such a way, the material is projected behind the forage harvester, at distances which can reach up to 30 to 40 feet. With this advanced technology, forage boxes are filled at an increased speed. The combination of both the cutter-head speed and the fan speed, completes marvelously this new and revolutionary system, truly unique and exclusive at DION.

- ★ **LARGE 117 PSI THROAT** providing a great feeding efficiency guaranteed by a perfected system of progressive feeding rollers well balanced by strong springs
- ★ **FANTASTIC BUILT-IN GRINDER:** giving back to the knives their original sharpening. Mounted on roller bearings, this system uses a standard emery stone
- ★ **CYLINDER AND FAN COVER:** can be removed easily, giving access for knives grinding or any maintenance work
- ★ **SICKLE BARS OSCILLATING PITMAN:** drives the sickle bars of all attachments and supplies 1 200 strokes per minute thus insuring the nicest cutting for any kinds of crops. Having a high carbon steel shaft, same is equipped with roller bearings assuring almost an indefinite life

AVAILABLE WITH THE TREMENDOUS EFFICIENT QUICK-CHANGE "DION" ATTACHMENTS

- Fleet "DION" One-Row Crop Attachment
- Fleet "DION" Two-Row Crop Attachment
- Exclusive Windrow Pick Up Head

- ★ **HEAVY-DUTY UNIVERSAL JOINTS** transmit the tractor power to the cutter head by passing through a strong 90 degrees angle transmission box. In some exceptional cases, these joints are protected by safety bolts which will shear off if ever the cylinder is overloaded. Such rugged joints insure a constant efficiency to the cutter head, feeding rollers and fan
- ★ **CONTROL LEVERS:** all control commands of the forage harvester are very easy to handle
- ★ **COMPLETE HYDRAULIC ELECTRIC CONTROL** of spout deflector and transmission
- ★ **ATTACHMENTS ARE CONNECTED BY AN HYDRAULIC CONTROL:** therefore, they can be raised or lowered thus allowing an easy adjustment of all attachments. This system is very compact, smooth and efficient

CALL US FOR AN ON THE FARM DEMONSTRATION

DION 16 FT. FORAGE BOX
 3 beater w/roof, Model 634 10 ton, New Idea running gear w/12 5Lx15 8 ply tires
\$4200
 Picked Up On Location
