

Wayne® Calf Program. Top heifer calves in 4 months!

The Wayne Calf Program is designed to condition a dairy calf for breeding at a younger age. After four days of colostrum, it starts with Wayne Calfnip®, a medicated milk replacer costing about half the value of whole milk, and Wayne Calf Krunch®, a complete feed. You may also use Dairy Calf Grower Pellets®, Calf Supplement®, Sweet Bulky® and Wayne Calf Health Aids.

We'll help you with a program that will get your calves to recommended body weight, economically, at four months so you can look forward to higher quality herd-replacement heifers. See us about the Wayne Calf Program.
