## Meet the fuel-savers of the 80's.

Buy Before:  
12/29/79  
Pay No Interest  
Until 4/1/80

The DEUTZ line, featuring the powerful efficiency combination: Air-cooled diesel... front-wheel assist.

The heat's on. And everybody's scrambling to make their tractors more fuel-efficient. Fact is, our air-cooled diesel engine has been fuel-efficient for 30 years...powering tractors at higher operating temperatures for more complete combustion and substantial fuel-savings.

But, engine efficiency isn't always enough. So years ago we helped pioneer 4-wheel drive to deliver the power produced by the engine to the ground where it belongs. Deutz 4-wheel drive delivers up to 55% more pull (at 10% slip-page) on wet ground using less fuel than most 2-wheel drive tractors.

DX 160 sets new fuel-efficiency record. Our 140 PTO hp DX 160 showed its colors this year at the Nebraska Tractor Test Laboratory when it set a new fuel-efficiency record

of more horsepower-hours per gallon of fuel than any other 80 to 250 hp tractor tested within the last ten years.

Before you buy just any tractor, take a look at Deutz...the fuel-savers of the 80's — available in 43-140 PTO hp, 4-wheel or 2-wheel drive.

Comfort and Convenience: DX tractors were designed from the ground up for operating

comfort and convenience second to none. Experience the tiltable, multi-adjustable seat. Compare the fully hydrostatic steering. Shifting levers are conveniently located at operators side. Powermatic power shift is standard on the DX 140/160. The optional Master Cab is factory engineered and factory installed, providing extra quietness and exceptional quality. It includes controlled temp oil heating plus ventilation system and air conditioning.

The new power in the country.
