

Bill to eliminate need for special moped license

HARRISBURG — Special licenses to operate mopeds will no longer be required if State Bill 1005, amended by State Representative Donald W. Dorr, R-York, becomes law.

Under current law, a Class 6 license would be required after January 1, 1980, to operate a moped.

Dorr's amendment authorizes anyone with a Class 1 license, a regular driver's license, to operate a moped.

"What my amendment does, in effect, is eliminate the requirement that a

special test be taken to operate a moped," Dorr said.

The requirement that moped operators wear eye protective devices is also eliminated by Dorr's amendment.

"By definition, these vehicles can not travel at great speeds, which makes the goggle requirement unnecessary," Dorr said.

"We are trying to make the use of mopeds as convenient as possible," Dorr said. "They offer a safe, economical transportation alternative, at a time when

conserving fuel is a vital necessity."

Dorr said the bill will now be returned to the Senate for concurrence in House amendments.

Dorr said he hopes this can be accomplished soon after

the Senate returns to session.

Season's Greetings

**A season to sow, a season to reap
Working the land held in our keep**

With these words, the men and women of farming perform their varied activities throughout the changing seasons each year.

While their methods have been revolutionized from previous hard and tedious manual tasks to present modern mechanized efficiency, their role as keepers of the land remains largely unchanged. They prepare, care for and harvest the foundation of life itself.

Now is their season to plan for yet another season of rebirth of the land. As one year ends and another begins, let's remember these keepers of the land and the life-giving meaning they impart to the seasons.

A SEASONAL TRIBUTE TO OUR FARMERS AND THEIR FAMILIES FROM YOUR SPERRY NEW HOLLAND DEALER

1. Free Hot Water
2. HiPerForm Cooling
3. Mueller-Matic Washing

- MUELLER HiPerForm**
1. Save energy and get FREE hot water by capturing the heat you're wasting when cooling milk!
 - In the Fre-Heater, refrigerant heat is transferred to water
 - Thermostat delivers 140° F water to storage tank. Mixing valve delivers "prepping" temperature water
 - Eliminates most slow cooling, cold weather starting problems because
 - 1 No air-cooled condenser
 - 2 Fre-Heater is installed in doors
 - 3 Head pressure is stable ensuring longer compressor life
 - A Fre Heater on 60° F water can produce a volume of 140° F water similar to the amount of milk cooled
 - U.S. Patent No. 4,041,726 and other patents pending
 2. Patented refrigerant control system.
 - Fast cooling with HiPerForm and efficient Mueller Temp Plate® evaporator (cooling plate)
 - Thorough agitation aids cooling, interval timer assures uniform blend
 - Dependability, longer compressor life, unique control system and factory sealed, pre-charged refrigerant tubing
 - One cabinet for cooler and Mueller Matic controls
 - Mueller craftsmanship, stain less steel construction and large radius corners for easy cleaning
 - A refrigerant control system licensed under and covered by Westinghouse Patent 3,264,837 and perhaps others
 3. Hand washing your cooler means your valuable time is "going down the drain" with the wash water.
 - Simple 3 step operation.
 - 1 Insert jet tube
 - 2 Fill detergent bowl, check acid level
 - 3 Switch unit "on" for automatic operation
 - Use on thousands of farms proves Mueller Matic® cleans coolers consistently better than hand scrubbing
 - Gives your cooler a pre-rinse, detergent wash, rinse, and cold water acid rinse — all automatically
 - Jet tube spray and precision metered acid rinse sanitize every inch of cooler interior
 - U.S. Patent No. 3,407,824
