

# Save on building, remodeling and maintenance with quality Reynolds Aluminum

Farm machinery storage and repair

General utility building

Poultry building

Dairy barn

Beef confinement feeding

Hog farrowing and feeding

Priced to compete with steel, Reynolds corrosion-resistant alloy, developed especially for farm use, helps you save on better farm buildings. You save on construction because you use large sheets that cover more and reduce overlaps.

And since there's no red rust...ever...you save on paint maintenance down the road.

Go with unpainted Reynolds Aluminum on the roof where its heat reflectivity helps keep stock cooler in summer and warmer in winter. Then make sidewalls sparkle with any of four, farm-right Reynolds Aluminum Colorweld® finish colors: stable red, meadow gold, valley green, birch white.
