

SHOW FEATURES

Saves Crops Saves Fuel.

Moridge grain dryers operate at up to half the per bushel cost of some dryers. Since the 1960's fuel conscience European farmers have preferred the Moridge dryer economy. On American farms and

at country elevators Moridge has handled the drying because of its reliability and low investment—low labor costs. Now there's an even bigger reason to dry with Moridge—fuel economy.

Dries Grain Evenly
Improves Grain Quality
Dries High Moisture Grain Efficiently
Completely Portable, Not Just Movable

Dries All Types of Grain
Grain Sorghum
Soybeans
Corn • Rice
Wheat • Barley
Sunflowers
Flax • Rape

See the Moridge 275, 400, or the 712 bushel grain dryers... all fully qualified for ASCS loan.

MORIDGE
MANUFACTURING, INC.

Moundridge Kansas 67107

If you're going to plant drilled or narrow row soybeans...

Tye has what it takes!

Solid Planting: The Tye Soybean Drill will plant your soybeans as close as 6 2/3" for drilled beans

Row Planting: Set the spacing for 15" rows with 30" tire lanes for one-time cultivation. Tye's total control drilling system lets you plant from 6 2/3" to 15" or most any width combination in between

Tye Total Control Drilling System: The heart of a Tye Soybean Drill is its internally fluted, adjustable seeder. Seed is uniformly and gently dispensed without cracking or grinding. Double disc openers deliver the seed in front of the disc bearing for

uniform seed placement. Adjustable spring pressure holds the double-disc openers at uniform planting depth. In addition, Tye offers the widest selection of press wheels going, each attached to the individual double disc opener to help control planting depth and firm the seedbed. Tye's track plow-out attachments reduce tractor tire compaction, assuring more uniform planting and higher yields.

Choose from 80", 160", 240", and 320" models equipped with 3-point hitch or a 160" convertible end-wheel model.

Profitable Soil Management Starts With Landoll SOIL-MASTER

TILLAGE

MACHINE

Soil-Master® for Wind, Water and Residue Management

Landoll Soil Masters® are your answer to saving time, money, energy and most important — your valuable soil. Don't let wind and water erosion rob you. With Soil-Master you chop, blend, and incorporate heavy residue in one pass through

your field. Soil-Master is the perfect primary tillage system for your farm. Variety of models from 6'3" to 23'9" cutting width. Wing models fold 180° for narrow transport width. Wings flex up and down to follow contour of ground.

Landoll Field Cultivators

Landoll's latest innovation in Soil Management is their Field Cultivators. They shatter the soil for maximum moisture in take and better preparation of seedbeds. Pull type and mounted models in soil working widths from 10'6" to 22'2" — with exclusive "Converta Hitch" feature. Wing models from 21' to 31'6" include oscillating tandem axles. Wings fold 180° for ease of transport. Wings flex up and down to follow contour of ground.

Danuser Post Driver Can Pay for Itself in One Fencing Operation. Available front mount packages leave 3 point hitch free for Post Hole Digger or —All Purpose Blade. Sets fence posts, snow fences, pipe for shallow wells, vineyard and gardening stakes. Reversible ram with head attachment breaks concrete.

Dig Holes Sitting Down with Danuser Digger. And you'll dig hundreds of holes in a day. Easily installed, 3 point hitch mounted. Adapter kits for other types of hitches. Auger sizes 4" to 30" diameters. Convertible for use as crane boom.

DANUSER DIGS...DRIVES...DRILLS EVEN SPLITS WOOD

Danuser Earth Drill Digs holes up to 36 diameters for utility poles, fence posts, foundations, landscaping. Danuser Earth Drill hydraulic power offers variable speed, reversible motion and shock absorption. Mounts quickly on backhoes, front end loaders, hydraulic cranes and truck mounted booms. Augers equipped with replaceable forged teeth. Saves time, money, labor wherever drilling is required.

Danuser Hydraulic Log Splitters Split a cord of wood in less than an hour. Tractor or trailer mounted. Capable of 24,000 lbs force. Easily splits 28" and 48" logs.
