Maybe it's time you switched fertilizer tanks

Switch to a Calumet Liquid Manure Spreader

Compared to today's—and tomorrow's—sky-high fertilizer prices, manure is just too valuable to waste. A hundred cow dairy herd, for example, can save thousands of dollars every year in fertilizer costs.

Take full advantage of this liquid gold with a Calumet liquid manure spreader teamed with a 4-shank soil injector. Injecting can help retain four times the nitrogen that's usually lost with surface spreading—in addition to reducing odor and run-off problems. Calumet spreaders, in

capacities from 1625 to 4500 gallons, are engineered for efficiency and longevity. Heavy duty steel alloy tanks are coated with epoxy to resist corrosion. Double reinforced A-frames and support skids add strength for heavy loads. All Calumet liquid spreaders are backed by a 12-month warranty.

Make the best use of the fertilizer produced on your farm with a Calumet liquid spreader and soil injector.

Call for information on the value of manure—and some good reasons why you should switch fertilizer tanks.
