

In Adams Co. No. 53 is No. 1

GETTYSBURG — Last month, No. 53 was No. One in both milk and fat production during her 305 day lactation record. The top cow, a five-year-old in the herd of Weim Sharr Farms, made 26,078 pounds milk and 1045 pounds fat for the best record in Adams County.

Her herd mate, No. 54 was the second top ranking cow in fat production in the county. She made 1014 pounds of fat with 23,178 pounds of milk for Weim Sharr Farms.

This same farm's cow No. 150, was in the top ten in milk production, making 24,375 pounds and 736 pounds fat.

Ray Dutterer's cow No. 203 was the second top Adams County cow in milk production. She made 25,901 pounds milk and 978 pounds fat during her record.

Another cow with a milk fat record worth mentioning was cow No. 16 in the Yellow Buttercup Farms herd. She made 935 pounds of fat and 23,410 pounds milk, ranking in the county's top ten.

LeRoy Deputy was undoubtedly happy with his cow's milk production record. As a matter of fact, Happy made 25,340 pounds, the third highest production record in the county. Her fat record was 830 pounds.

Sixty-five cows completed lactation records with over 600 pounds milk fat. Thirty-eight had records over the 600 pound cut off, eighteen were over 700 pounds, five went over the 800 pounds mark, two cows made more than 900 pounds, and two cows topped the 1000 pound mark.

Leading the county in total milk fat production was the Roy A. Weaner, Jr. herd with 2.04 pounds for 55 cows. They were followed by the 110.6 cow record of the Yellow Buttercup Farm, with 1.96 pounds.

Noel & Holmes and Stoner Bros. Dairy were tied with a milk fat production level of 1.95 pounds. And Kling Ayr Farms was fifth with 1.85 pounds of fat.
