

Pennsylvanians honored by Md. Apple Comm.

ANNAPOLIS, Md. — Two Pennsylvania store managers were recently recognized by the Maryland State Apple Commission for having done an outstanding job of promotion during "National Apple Month", October, 1979.

Rick Heininger, R5 Gettysburg, was a second place winner in the Co-op and Affiliated Independents division of the contest conducted by the Maryland Food Dealers Association and the state department of agriculture. Heininger is the produce manager of Jay's Number 4 Shopper's World in Frederick.

Another second place award went to Paul Spangler of Newbury. Spangler

manages the produce department of the A & P Store 992 in Chambersburg.

Cash awards were made to the winning stores and produce manager responsible for the successful apple

promotions.

The 1979 contest marks the 2nd year for the competition which is designed to focus consumer attention on fresh Eastern Apples at the height of the harvest season.

According to Anthony J. Rubino, Chairman of the Maryland State Apple Commission, "the contest is a wonderful way of uniting the pride of the apple grower in his product with the skill of the store and its produce manager when it comes to selling that apple."

"It's a good two way learning street," adds Rubino, "in that it gives a chance for apple growers to see at first hand the marketing skills needed at the retail end of the business of serving up fresh fruit to the consumer."

Winners in the contest represent a range of food stores throughout the state independents to the large chain supermarkets.

Daidsburg 4-H

DAVIDSBURG — A slide show on 4-H was featured at the January meeting of the Davidsburg 4-H Club, held on the 18th. The King and Queen, Brian Palmer and Linda Brown, gave the presentation. Volleyball followed the meeting.

Upcoming dates announced included: County Council meeting, February 6 at the 4-H Center; 4-H Expo,

February 8-9, at the York Mall; Flng into the 80's, February 22-23 at the 4-H Center; Roller skating, February 25 at the Delco Plaza; and 4-H Auction, March 28 at the Center.

The next meeting will be held at the 4-H Center on February 21 at 7:30 p.m., and members will sign up for projects at that time.

Martin LIMESTONE

Apply lime on frozen ground

Lime can be applied almost anytime, however winter months are ideal, because the ground is firm and the freezing and thawing action helps to disseminate the lime in the soil.

is the Russian language. She is a member of the Russian honor society, and last November, Cindy travelled to the U.S.S.R. for a ten-day study tour.

Cindy will have an active year ahead of her as she represents the Maryland apple growers and her favorite fruit, the apple.

Cindy Caughill, the 1980 Maryland Apple Queen, was crowned by last year's queen, Carol Butler, from Germantown, Maryland.

Wouldn't you like to worry less about corn diseases?

Funk's research is finding answers faster than ever.

You've already seen some results, in hybrids that are tolerant (even resistant) to blight and virus, among other diseases.

Of course, yield is still the main goal, as you'd expect from The World Yield Leader. And Funk's researchers have developed a broad genetic base for new, even better-yielding

hybrids. But they're looking beyond diseases. Beyond yields. Into reducing insect damage. Withstanding stresses. And other ways to improve your productivity and profit.

We really want to be part of your corn program.

FREY FREE STALL

LIFETIME FREE STALL HOUSING

Cut bedding costs 75 per cent, reduce labor for barn cleaning and cow washing; reduce teat and udder injury to the minimum — house your milking herd in free stall housing. Each cow provided a stall for loafing. She won't be stepped on, the rear curb forces manure out into alley for mechanical cleaning or washing. A few minutes twice a day cleans the stalls and curbs, bedding lasts almost forever if your stalls fit the cows. Popular sizes are 6'6", 7' and 7'6". Size 'em by breed.

Our free stall partition may be mounted on wooden head boards or we make a steel divider. Set the legs in 8 to 10' concrete curbs to hold and retain bedding. Stall floor can be soil, sand or gravel. Bedding — straw, sawdust, peanut hulls, ground corn cobs, etc. Should be installed with paved alley surface 8 feet wide for mechanical cleaning or washing.

- 8 Models all steel welded farm & feedlot gates
- 2 Models all steel welded head catch gate
