

## Schuylkill County DHIA Monthly Report

**SCHUYLKILL HAVEN** — Ten year old Sugar, of the Miller and Rex, Inc herd, was the cream of the crop during her 305 day lactation record for Schuylkill County's DHIA. This cow led the county with 928 pounds of fat and 23,078 pounds of milk.

Mollie, a six year old in the William R. Daubert herd, turned in a record that ranked second in the county. She milked 21,370 pounds with 873 pounds fat.

Out of the forty-nine cows completing lactation records of over 600 pounds milkfat, one beat the 900 pound level, eight were over 800 pounds, fourteen gave over 700 pounds, and 27 made over 600 pounds fat.

Miller & Rex, Inc. were the high herd in pounds of milkfat per cow per day with 2.07 pounds for their 35.4 cows on test.

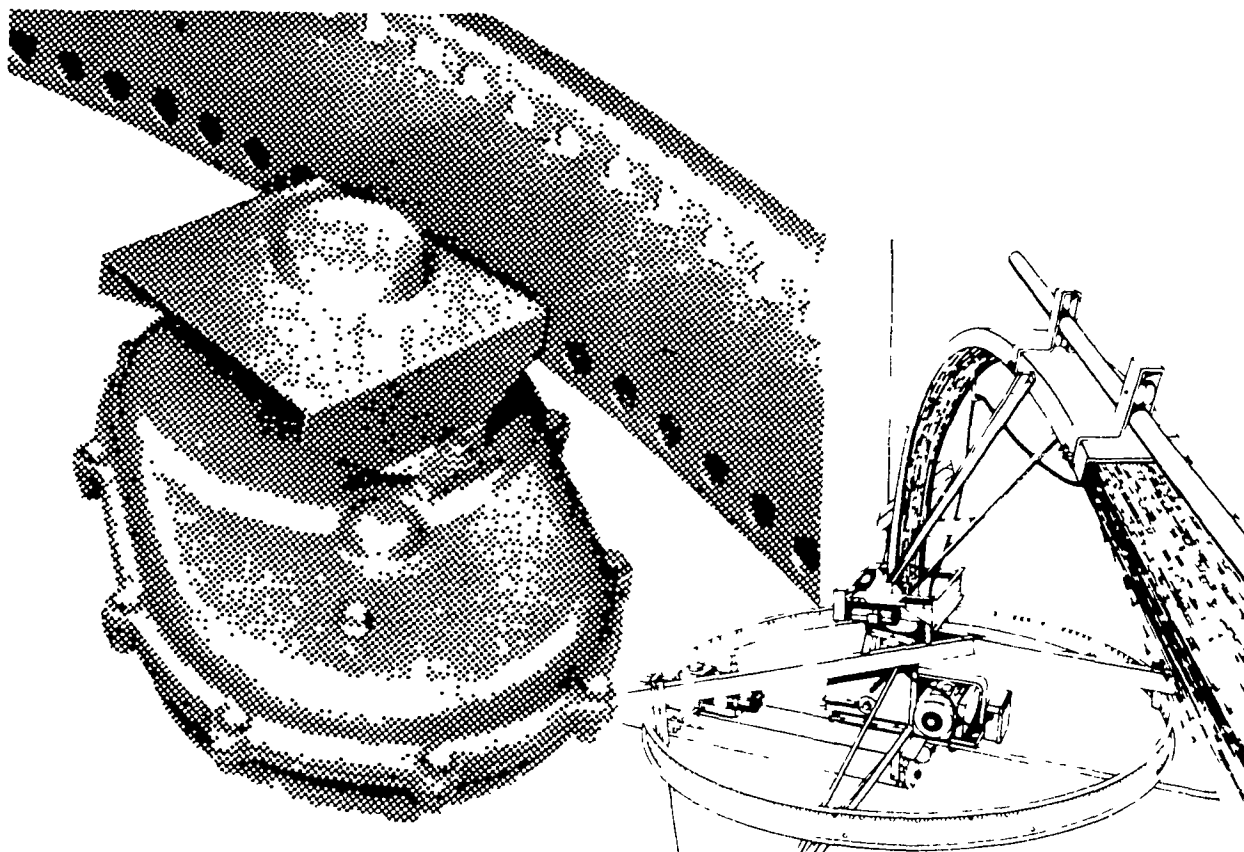

The following herds are reported from the IBM report for December 1979. A total of 860 cows were tested. Only herds averaging 1.4 lbs. of milkfat per cow per day or over, and on an official program are reported. The report on individual cows includes only those reported and producing over 600 lbs. of milkfat.

OWNERS	NO COWS	LBS MILK	LBS FAT
Miller & Rex, Inc.	35.4	49.4	2.07

# Volumatic<sup>®</sup> III silage distributor-unloader by JAMESWAY<sup>®</sup>

## Get capacity

Another reason why all ring-drive silo unloaders are not alike: Independent power-ring drive, with separate 1/2 hp motor, powers the Volumatic III silage distributor-unloader around the silo. Frees the auger/impeller motor to put its full power into big-volume unloading. Provides positive rack and pinion traction. Features slip-clutch protection.

See us for systems and service that help make the good life better.
