Built to Last**

**CHORE-TIME
BRINGS YOU
THE AIR SYSTEM
WITH A MIND
OF IT'S OWN!**

Until now, most ventilation systems had one drawback. Air inlets had to be opened and closed by hand.

This was time consuming — and pretty much a matter of guesswork.

Now, Chore-Time has eliminated this problem.

The Chore-Time system has a mind of its own and adjusts inlets — in conjunction with fan operation — to maintain air pressure at a constant, preset level.

This provides a degree of air and moisture accuracy never before possible in poultry and livestock buildings.

The new inlet control (pictured) is just one of many exclusive features that make Chore-Time air systems number one in performance and reliability.

TWO WEEK SPECIAL

ENDS FEBRUARY 16, 1980

10%

**OFF REGULAR PRICE
ON ALL VENTILATION AND
FLEX AUGER SYSTEMS**

Four basic components go into the makeup of this ventilation system the fan, the inlet, the air inlet power pack, and the controls. Coordinated, these four basic components can provide you with better conversion and performance by removing stresses due to lack of oxygen, excess humidity, noxious gases and temperature extremes.

Reliability through simplicity, Chore-Time's advanced air system provides automatic control of incoming fresh air, moisture and heat for productive environmental control in agricultural buildings.

HOOD FAN**

**FLEX AUGER
DELIVERY
SYSTEM**

- The Flex II Auger
- The Original Flex Auger
- "HI-C" Flex Auger

TWO WEEK SPECIAL

Ends February 16

**5% OFF REGULAR PRICE
ON CHORETIME BINS**

**Completely Galvanized
Weather-proof Bins**

The feed bin is the heart of any feeding system. If it fails, the system fails. That's why we put so much quality into our complete line of bulk feed bins - starting with the complete galvanizing of all bin parts, even the legs and braces.
