Announcing stainless steel dinnerware for hogs.

Shenandoah's stainless steel feeder is the next best thing to teaching your hogs table manners. They can stomp it, bang it, crowd it and abuse it, but it's virtually indestructible. It won't rust out, it won't wear out. And it will still be there, long after the hogs have

moved on. Stainless steel feeders are also easier to clean and disinfect than the old kind. Shenandoah makes 'em with a high grade of steel, and we make 'em tough. Because we want 'em to take anything your hogs can dish out.
