

# Planning better milk yields ... by the numbers.

This Pennfield Computer readout can make your milk yields far more profitable . . . without giving away one bit of effective nutritional quality. In fact, it will help to eliminate waste as well as balance the nutrients provided by your home grown forage to meet the exact nutritional requirements of your cows.

This readout is a vital part of the Pennfield Computerized Total Ration Service. And here's how it works:

1. We collect samples of your forage
2. Then we evaluate the quality of your forages. We determine the total digestible nutrients. The fiber content. The protein content. The amount of carbohydrates.
3. The computer quickly spots any nutrients lacking in the forage. For your milking cows. And for your dry cows. It immediately points out the overfeeding of nutrients. Underfeeding, too. Both, of course, may be different at different

times of the year. And the printout will tell you what you need. And when.

4. Your Penn Pro Professional advises you on the quantity and type of nutrients that should be added, to balance your total feeding program to your cows' nutritional requirements.
5. The result can be increased milk production at the lowest possible feed cost.

The Pennfield Computer Total Ration Service could bring on your greatest growth act. In your milk yield. And your profits.

Try the Pennfield Computerized Total Ration Service. There's no cost or obligation for this unique service to dairy farmers. Just phone us right now. Today. At Pennfield Feeds. Local calls: Lancaster 299-2561, Red Lion 244-4511. In 717 and 215 areas dial toll-free 800-732-0467. Pennfield Feeds, Rohrerstown Road, Lancaster, PA 17604.
