THE COMPLETE LINE
HUTCHINSON
CENTURY
GRAIN
AUGERS

6' - 8" - 10 - 12
 Lengths to 71 ft
 Heights to 49 ft - 4 in
 Capacities to
 4500 Bu /Hr

**HUTCHINSON Puts It
 All Together**

The Century Grain Auger doesn't come in a dozen boxes sacks and bundles. The assembled sections go together in a jiffy to save you time and eliminate parts shortages and every one of its parts is made a bit heavier than need be so they'll last and last. Gas electric P.T.O. and hydraulic power available. There are a lot of reasons they're the favorites of so many in the trade and on the farm.

Harvestall[®] Grain Chillcuring[™]

Curing isn't drying. It's letting corn use it's natural process to manage the moisture within each kernel.

Visibly different

The Harvestall system provides the environment your grain needs to remove the moisture as it's released.

Vernon Leichtman, New Hampton, Ia., says "Harvestall's Chillcuring allows me to control conditions. I end up with corn 2 to 3 pounds heavier test weight than with a gas drier and it costs less."

Sunflower has it!

...the G 2 and 3-Section Offset Disc

Flexibility is the key word because these totally flexible discs offer flexibility in rough or terraced terrain without gouging or buckling. Precision pre-set gang angle on the Model G insures a straight pulling disc because the gang cutting angle is always in the proper relationship to the pull point (the hitch). Also because of the pre-set gangs set-up time has been cut to a bare minimum.

Some of the features offered on the Model G are heavy duty 4" square tubular steel frame heavy duty lifting mechanism individual wheel adjustments exclusive adjustable tongue greasable sleeves at hinge joints for longer life machined spools and high-quality disc blades. However you look at it from an engineer's point of view or from your point of view you just can't beat the quality of manufacturing or depend-

ability of the Sunflower Model G 2 and 3-Section Flexible Offset Disc.

See your Sunflower dealer he'll show you that the Model G 2 and 3-Section Disc has a size to fit your needs.

Boost Production - Build Returns!

TMR*

***Total Mixed Rations**
 At your service with VAN DALE stationary mixers or mobile mixer feeders. These make possible the precision blending of rations by which TMR helps build return on investment through more meat or milk with less feed and protein. And remember VAN DALE offers you the whole package to go with these mixers including silo unloaders bunk feeders conveyors liquid manure equipment. All products of VAN DALE superior engineering.
