Profitable waste management with VAN DALE

Manure is money! Don't throw dollars away. Let Van Dale show you the way to modern, proven manure management.

Slinger Spreader Tanks for beef and dairy liquid manure in 1500, 2250, 3000 gallon models. Low, rear spread pattern with up to 40' swath. No messy blowback.

Vacuum Spreader Tanks for hog liquid manure in 1500, 2250, 3000 gallon models.

Separate intake and discharge ports for clean fill-hose hookup.

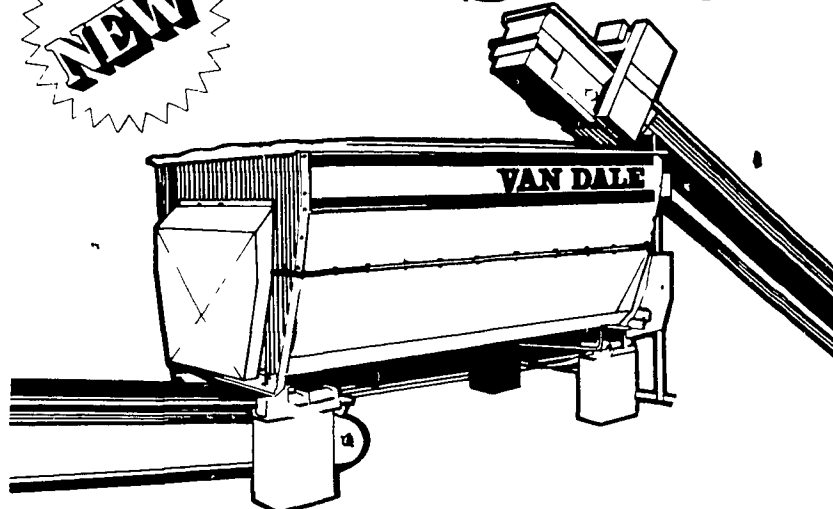

Barn Cleaners to help you handle more livestock with less labor. Improve farm efficiency, increase profits.

Complete product line. Transfer Pumps, Agitator/Filler Pumps, Above Ground Storage Tanks, Soil Injectors. One supply source for your entire waste management system.

ST 100

A Stationary Mixer Sized and Priced for your operation

- Let's you feed Total Mixed Rations (TMR) to your cattle
- Fits into cramped areas impossible with larger units
- 4 auger system means full mixing in from 1 to 3 minutes
- Bottom drop out door means complete discharge for each mixing
- Chain case provides oil bath drive for full lubrication, long life
- Electronic scale with indicator means precise mixing every time

SEE THE NEW MAGNUM SILO UNLOADER DESIGNED AND ENGINEERED BY THE PIONEER IN THE SILO UNLOADER INDUSTRY

A proud new achievement from the leading manufacturer of Non-Stop Feeding equipment. The MAGNUM 27 combines the best features of our popular DA 1230 and our rugged Industrial unloaders. Here's a great new silo unloader that will deliver high capacity with any type of silage - even hard, frozen, or tough haylage - with ease.

The new MAGNUM 27 unloading action starts with more aggressive wall cleaners with replaceable knives. Coupled with the dual, 7 and 8 inch differential speed augers this combination gives better wall pressure for cleaner walls and maximum silage delivery to the impeller. The impeller is a large 27" diameter driven by an extra-heavy "C" section belt for more traction and longer belt life. There's still more - the MAGNUM 27 features quick release pins so you can fold the machine, maintaining perfect balance, and pull it to the top of the silo in minutes. This makes it easy to fill 'n feed. There's also a new compound radius chute and a new roller torque arm which is attached to a larger, heavier support triangle. Add it all up and you have a performance champ that will give years of service.
