RHINO FLEX 90B

11' Transport Width. The Flex 90B will follow inside most tractors with dual wheels, making it easy and safe to go from field to field through narrow gates and over narrow bridges. You can have peace of mind regardless of who is at the wheel! Takes less storage space also! The narrow transport width is made possible because the heavy wings pivot 16" inside the base gangs' outer disc. This design feature also contributes to the 90B's plowing ability. The heavy wing structures provide the weight needed to make wings penetrate like the center frame gangs. This allows the wings to "flex up" without lifting the center unit when the inside wing gang strikes a rock or stump, thus reducing shock loads to all components. The Flex 90B is designed to save you money in the field and on the road.

Standard Equipment includes 22 6 gauge Disc Blades Vertical Swivel Universal Clevis Heavy Duty Tongue with Jack Alloy Spring Mounted Bearing Hangers Cast Trunion mounted Bearing Housing Double Row Timkin Tapered Bearings with Quadra Seal 1 1/2" Square Axle Balk Buster Center Tooth Slave Hydraulic System Tapered Discs Factory Assembled Gangs including Heavy Duty Scrapers Cover Discs

FOLLOW THE LEADER

91 tons per hour* now that's capacity!

It's the largest capacity forage harvester available today — the Gehl 1200. Yet it's a light running, efficient machine that works with tractors ranging from 80 to 225 hp.

If you've got a big job to do, the 1200's for you. It cuts through the heaviest windrows and the tallest corn to deliver uniformly cut feed.

The 1200 is built for big performance. With nine hard working knives, and our unique built-in hydraulic knife sharpener. A giant 2 1/2 inch cylinder. A full 129 square inch throat area. And our patented 24 inch spinner that moves material to the blower at nearly 40 mph with no cross augers to plug.

Add capacity matched attachments 2 or 3 row corn heads hay pickup snapper head.

Then tackle your biggest harvests at up to 91 tons per hour! See the 1200 — the leader in forage harvesters — at your Gehl dealer.

Gehl Company West Bend Wisconsin 53095

Model	Input Capacity
GEHL 1200	91.8 tons/hour
New Holland 890	75.6 tons/hour
I.H. 830	70.5 tons/hour

Input Capacity equals the flat speed for a cut multiplied by the throat area at 1/2" between maximum opening in throat at a length of 24" at 20 lbs./cu. ft. capacity. Your capacity may vary with actual field conditions.
