

_____ is necessary to solve the problems

_____ will help to solve the problems

_____ will do very little to help solve the problems

_____ will be more harmful in the long run

Regional Resource Projects

Federal, state and local governments would join to provide funds and personnel to urgent resource problems that are unique to specific regions

- A single project could include several counties in one or more states

I believe that such a program (check one)

_____ is necessary to solve the problems

_____ will help to solve the problems

_____ will do very little to help solve the problems

_____ will be more harmful in the long run

Some of the strategies are listed below. Please put a "1" by the strategy that you feel would be the most effective, a "2" by the strategy that would be the second most effective, and so fourth, with a "5" by the one that would be the least effective

_____ Regulatory Emphasis

_____ Conservation Performance Bonus

_____ Cross Compliance

_____ Natural Resource Contracts

_____ Redirect Existing Programs

Check the comments that most nearly reflects your views

_____ Conservation measures should be required

_____ Conservation measures should be entirely optional

_____ Some conservation measures should be required and other should be optional

If conservation is optional, which of the following incentives do you think would be most effective in convincing farmers to participate in conservation measures. Put a "1" and a "2" by the two methods you think will be the most effective

_____ A bonus in the form of low interest loans

_____ Increased technical assistance

_____ Commodity price supports

_____ Payment for the amount of soil saved per year

_____ Other _____

Please put a "1" by the level where you believe leadership should lie, a "2" by your second choice and a "4" by your last choice

_____ Federal

_____ Regional

_____ State

_____ Local

Who do you believe should pay (\$\$\$\$\$) for conservation

_____ Farmer

_____ Local government

_____ State government

_____ Federal government

_____ A combination of

_____ Other

Where do you think research should be directed

If you had your "dream come true" how would conservation in America be handled

Please add any comments you have

MORE MIXER FOR THE MONEY

Units In Stock

Henke's Kwikmixer upgrades mix-ability...

Big, heavy reinforced augers rapidly and thoroughly mix and blend most feedstuffs. Lumps, strings, and balls are blended. Non compatible materials are thoroughly mixed. Rapid mixing is assured with a minimum of power. Complete rations are precision mixed to fit your specific feed needs.

RESULT: You efficiently feed cattle, hogs, sheep, turkeys or chickens.

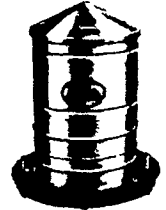

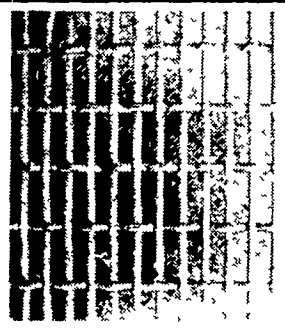

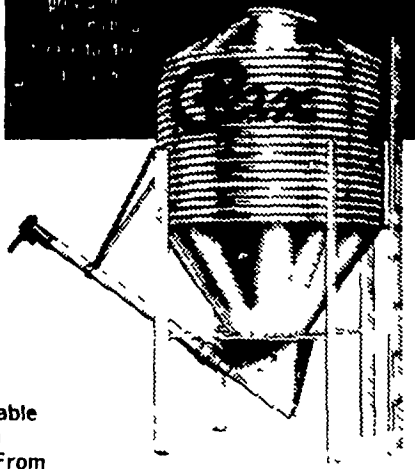

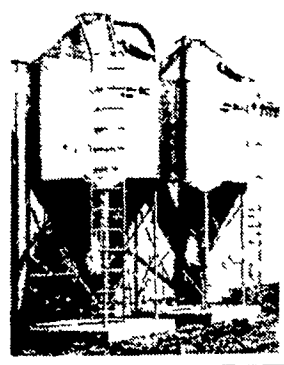

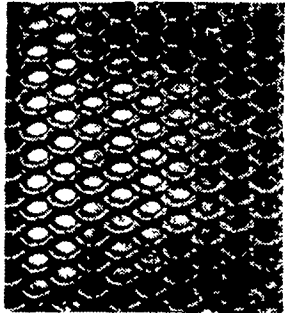

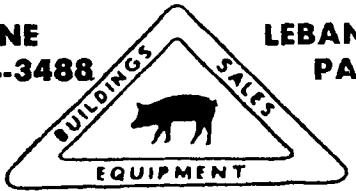

Process most feed ingredients: molasses, supplement, corn, milo, cracked corn, high moisture corn, silage, haylage, high urea concentrates.
