**ON PURINA'S #1 DAIRY RATION  
TEST COW CHOW**

**★ MARCH 31 - APRIL 11, 1980**

Because it is very palatable and has added energy, fresh cows can really get up and milk to their bred-in potential.

During this special 2 week period (March 31 - April 11, 1980) Purina is offering a \$5<sup>00</sup> off discount on each and every ton of Test Cow.

We want the dairyman to take this opportunity to feed Test Cow - see how his cows really go for its palatability - see the fresh cows peak higher and hold peak production longer because of Test Cows added energy. We want you to see results!!

**PURINA TEST COW  
IS THE MILKING RATION  
GOOD DAIRYMEN  
ARE LOOKING FOR**

Purina Test Cow Chow was not developed by Purina Dairy scientists for just ordinary cows . . . nor ordinary dairymen. This high energy milk-maker was introduced to the dairy industry to be fed by the kind of good dairyman who's never satisfied with his herd's level or production.

If you are convinced that your cows have more bred into them than you are getting out of them . . . If you want to get your herd off of a production plateau . . . or if you're looking for greater return over feed cost, Test Cow, with its "super package" of nutrients, is the ration you are looking for.

I want to take advantage of Purina's Special Test Cow Chow Offer.
