Omaha Cattle

Thursday, April 3 Report supplied by USDA

Closing prices on slaughter steers were 4.50-5.50 lower, and heifers were 5.00-6.00 lower late. Cows were 2.00-3.00 lower and bulls 3.00-4.00 lower.

Four day receipts this week: 9300; last week: 10.000; year ago 9500.

The decline in fed cattle prices continued at an accelerated pace into the fourth successive week. The current downturn was the most severe for a one week period in the past several years and left closing levels at the lowest point since late August. The downturns were inforced on very modest supplies in reflection of a chronically bearish downward plunging carcass trade. Futures trading also shared in the bearishness, often closing at the maximum allowable decline. In view of the poor movement of the finished product, most buying interests confined purchases to minimum immediate requirements. The run included a fair percentage Choice steers and heifers although many carried a moderate to heavy coating of mud. Steers made up approximately 45 pct. and heifers 40 pct. Cows comprised 8 pct. and feeders 5 pct.
