

Alpheus Ruth, left, presents 40 pound block of cheese to Mr. and Mrs. Jerry Lee Hershberger, New Enterprise.

Farm couple wins big cheese

NEW ENTERPRISE — Lehigh's Chairman of the Board, Alpheus Ruth, presented a 40 pound block of cheddar cheese to Mr. and Mrs. Jerry Lee Hershberger, New Enterprise.

The Hershbergers, members of the Inter-State Co-op, won the cheese by registering at the Lehigh booth during the Farm Machinery Exposition held at the Farm Show Building in Harrisburg, Pa on February 28, 29 and March 1st. Secretary of Agriculture Penrose Hallowell made the drawing from more than 1000 registrants.

Lehigh manufactures over 40 million pounds of cheese annually at the Allentown facility. The cheese plant is

the largest in Pennsylvania of its kind, and one of the largest in the East.

The presentation was made to Mr. and Mrs. Hershberger at the District meeting held on March 18, 1980 at the Northern Bedford High School, Loysburg. Earl T. Reighard is the area District Director of Lehigh.

Do you houseclean your medicine chest?

NORRISTOWN — In the winter cold and flu season is here, and many families are adding prescription and non-prescription drugs to their medicine cabinets.

Before you crowd in new medicines, take a few minutes to clean out your cabinet, suggests Nancy Stevens, home economist.

Throw out all unlabeled bottles of medicines and boxes of pills. Also discard any medicines that show signs of deterioration or that have been in the cabinet for a long time. Many medicines will have changes in strength or composition to make them either harmful or useless.

Tablet preparations are usually good until the tablets show signs of crumbling or deterioration. Solutions should be safe as long as they don't change color and stay free and clear of residue. Medicines in

suspension are long-lived but tend to settle, so shake them well before using.

Many medicines have open dates stamped or printed on the container. These preparations should be discarded once the date is passed.

The best and safest way to discard medicines is to pour them down the drain or flush them away. Carefully rinse the bottles. Never assume that wastebaskets are free from the curious eyes and hands of young children.

NEW PROFILES OF PERFORMANCE

See a real field and feedlot performer — the John Deere 70-hp 2640

It's hard to find a tractor versatile enough to tackle tough tillage jobs yet maneuverable enough to take on feedlot chores. But that's just the type of performance you'll find in the 70-hp John Deere 2640 Tractor. In the field, you get famous lugging ability that combines with a tough 8-speed transmission and Load-and-Depth Control hitch to get the job done on time. In the feedlot, the closed-center hydraulic system really shines, providing instant hydraulic response whether you're steering or operating a loader. Plus, there are a lot of new performance features like a 20 percent increase in hitch lift capacity, electronic instrument panel and more comfortable adjustable seat. For the field or the feedlot, see the John Deere 2640.

Simply tough disks

Now level disking is quick and easy...just turn one crank to fine-tune fore/aft leveling adjustments

Leave your wrenches in the tractor. New drawn Level-Action™ Disks now have a simple crank adjustment. Eliminate a center ridge or valley by rotating this crank. A decal by the crank shows even inexperienced help how to make the only adjustment needed in most fields.

There are more improvements, too. New bearings on 200 and 300 Series Disks have a 2-year replacement warranty. Exclusive Dura-Flex™ bearings have 4-lip seals that lock in grease and block out dirt.

See us for new John Deere Disks in widths and weights that match your needs.

Tackle the toughest haying conditions and come out on top with a 9 1/4-foot cut 1209

Here's a mower/conditioner that's ideal when your crop and field conditions aren't. The 1209 is fearless in the field because it's built strong to handle thick hay stands yet nimble enough to float over rough terrain. Come in and let us show you the features of the 1209 like adjustable guard angle, adjustable roll pressure, intermittent-cleat conditioner rolls that will give you the upper hand this hay season.
