

Walnut Lane Farm sweeps Guernsey awards

BY RUTH ANN BENEDICT
Staff Correspondent
KAUFFMAN STATION —
Mr. and Mrs. Rodney Stuff of

Walnut Lane Farm, Mercersburg, received all three high county DHIA production awards at the

annual Franklin County Guernsey Breeders' Club Banquet held last Friday at the Kauffman Station

Ruritan Building.

Some 100 Guernsey breeders' and families attended the event held to recognize outstanding members and to re-organize for the coming year.

"Sunnydell H. Della", owned by the Stuff's, garnered the high lifetime production award. Della, in eight lactations, produced 111,774 pounds of milk and 5034 pounds of butterfat.

The second award presented to the Stuff's was high herd production. The Walnut Lane Guernsey herd averaged 12,474 pounds of milk and 595 pounds of butterfat.

The Stuff's also received the high cow production award with 17,296 pounds of milk and 819 pounds of butterfat.

The Franklin County Guernsey Breeders' Club annually presents awards to the top junior and senior 4-H member in the county with an outstanding project book.

Receiving these awards were Jeffrey Benedict and

Cuts... then chisels THE NEW BRILLION SOIL BUILDER

This is the new Brillion Soil Builder coulters-chisel to get you into minimum or conservation tillage. It mixes about 75% of crop residue into the topsoil, leaves remaining one-fourth on surface. It works like this: 20" coulters supported by a weighted frame, slice through trash and soil. Hefty 1 1/4 x 2" shanks with 4" helical shovels and miniature moldboard points, crumble, incorporate, cover and ridge to create a new soil in one pass. A soil that soaks up moisture, resists erosion and breathes with life. The Brillion Soil Builder is available in two models with "dual-nested" spring clamps (one spring inside the other) — or rigid shank mountings. Also, in three sizes with 7, 9, and 11 chisels. Let us show you this new tool that can help you manage and build your soil.
