HERE ARE TWO FIRSTS FOR PENNSYLVANIA:

One, the first Satellite Challenge Feeder sold and installed on a Pennsylvania farm, and the first Challenge Feeder we have sold in Chester County, Pennsylvania.

This unique feeder is a compact assembly of two challenge feeders and the concentrate Storage bin - all in one package, which can be located in most feed lots without any further concrete work.

This unique feeder was installed on Mr. and Mrs. Richard Hoopes Farm at West Grove, Pennsylvania in December, 1979.

Mr. Hoopes states that this feeder is operating exactly as it is designed to do and he is sure that the cows like it very much from the usage it is getting. He can't verify how much more milk he is producing because he just started a new milking parlor in October and his cows need to get adjusted to all the new facilities.

He also is using the new DV 300 parlor model milker control in his parlor and is really sold on their performance.

Why not stop in at Mr. and Mrs. Hoopes farm and look over his new system and talk to them about their challenge feeder. He will be happy to talk about them.

We will be getting two more Satellite Challenge Feeders in stock in April - so if you are interested in this outstanding feeding mechanism that controls the amount of concentrate you want to feed your cows, just give us a call at 301-658-6923, and talk to any of our service personnel about your needs.
