

## There Are Many Ways To Save Time With The Green Machine®

The Green Machine power blower with liquid-tank attachment is ideal for spray vaccine application — vaccine is applied in about the time it takes to walk through the flock.

It's just one way poultrymen are saving time and making money with this great new tool. Here's 12 more:

### BLOWING:

1. Removing accumulated dust and cobwebs from buildings before housing new laying flocks.
2. Fast removal of old feed from feeders
3. Periodic cleaning of fans and motors while in use — cleaner surfaces give a lower heat rise, prolonging motor life.
4. Cleaning egg trays and walkways of dust during the lay or growing period of pullets.
5. Cleaning screens over air intakes both before housing a new laying flock and during lay periods, allowing unrestricted flow of fresh air into the building.
6. Removing accumulated dust and debris in feed rooms and mills.

### DUSTING:

7. Using The Green Machine dusting

attachment with static-electricity feature, such materials as Sevin® 50% W.P. can be applied to the poultry and building surfaces to control the Northern Fowl Mite and other pests.

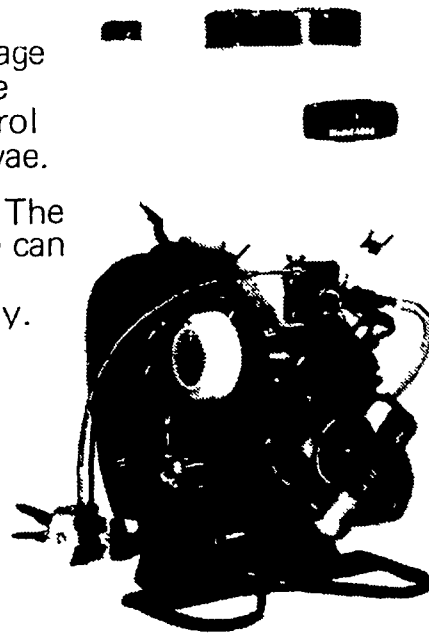

8. Garden vegetables and ornamental shrubs can be dusted easily and thoroughly

### MISTING:

9. In addition to applying vaccine, as described above, cages and buildings can be disinfected before housing a new flock.
10. Housefly and mosquito control insecticides can be quickly and easily applied.
11. Aphids and other pests can be controlled in shrubs and trees.
12. Grain storage facilities can be misted to control insects and larvae.

Now, see what The Green Machine can do to save you time and money.
