CCC interest rates set

WASHINGTON, D.C. — U.S. Treasury. Continuing Secretary of Agriculture Bob Bergland Tuesday announced the interest rate on all 1980 crop loans made by the Commodity Credit Corporation will be 13 percent.

Bergland also announced the 13 percent rate would apply to any new 1979-crop loans and new farm storage facility loans made after today. Bergland said the new rates are based on the cost of borrowing money from the U.S. Treasury. Continuing interest rates at the earlier level, he said, would result in losses to CCC.

Farmers who already have CCC commodity or facility loans would not be affected by the new interest rate, Bergland said.

The interest rate for 1979-crop commodity loans had been 9 percent until today. The interest rate for farm storage facility loans had been 10.5 percent since March 22, 1979.

PROFIT... and how to make your fair share in today's market

1. Complete line of specially formulated pullet feeds. Backed by many years of research and field testing and our nationally known nutritionist, we have produced feeds with unequalled results.
2. Complete line of amino acid balanced layer feeds. With the help of our nutritionist, we have developed layer feeds that can help lower the cost per dozen eggs.
3. Contract pullet production. We have contract farms that grow the pullets under our supervision, guaranteeing the quality of your layers.
4. Contract egg (white and brown) production. Right now we have the openings for 300,000 contract layers. New facilities invited.
5. Complete egg marketing program. We will guarantee to buy your eggs, stamp them USDA Inspected and market them within our seven state area.

If you'd like to squeeze a little more profit out of your present business, call us at 717/665 5927, or after 5 call Jay Habecker, 717/393 1520 or Martin Zukovich, 717/687 6020 and we'll discuss how we can do it for you.
