## "ATTENTION" ALL A.E. STALEY CO WAXY-CORN CONTRACTS!

We still have plenty of waxy-seed available for the grain farmers and also Waxy Hybrids are great for cattle and hog feeders. In this area they should plant WAXY—MAIZ Hybrid seed-corn. College feeding trials show 10% better gains on 7% less corn with WAXY fed to cattle. We have several WAXY-MAIZ Hybrids for this area. They yield the same as yellow dent corn, but have higher energy starch. Hogs gain better and get to market faster on WAXY-MAIZ. We can show you how to boost cattle and hog feeding profits.
