

Hi I'm Bill Markey, poultry operations manager for Keystone Mills. If you had the opportunity to attend the P.E.Q. rally on Thursday, you will understand my enthusiasm in your need. To take advantage of increased efficiencies as a means of lowering costs. My hats off to Purina research for designing programs for maximum savings to you the poultryman. With the escalating cost of money today we must offer to you these advantages. Bio-Mittex lighting saves many dollars ~~is~~ wasted on electricity, but better yet, the potential for feed savings are much greater. A specific ventilation program and the patented Nutri-Cycle feeding program provide many additional dollars ~~is~~ in savings. If you are interested in having a complete savings survey of your poultry operation, return the request coupon to me.

With sincere savings to you, *Bill*
