

DEUTZ-FAHR... THE GENTLE POWER IN THE HAYFIELD

The hay's down and it rained.

The rains may soak your cut hay, but the Deutz-Fahr Centipede Haymaker can save your crop. It lifts, turns, fluffs, spreads and flexes the stems to release moisture fast. You get fast air-drying, save more nutrients and maintain hay quality.

Stop in soon and check out the new Deutz-Fahr Centipede Haymaker. See why Deutz-Fahr is the gentle power in the hayfield.

More leaves — less tangle.

The circular raking pattern of the Deutz-Fahr Rotary Windrow Rake gives you fluffy, tangle-free windrows that are easy to pick up. Gentle handling saves leaves and stems for higher protein content in your hay.
