Owner: Owen Martin, Hagerstown, MD

JET STREAM ties together many desirable qualifications - a strong pedigree, an outstanding predicted difference, and an exceptional type transmitting pattern

JET STREAM daughters have real dairy quality with flat, clean bone and well-attached, high quality udders. Look for him to be an improver of center support, teat size and shape, and fore and rear udders.

His flatbone characteristics set to the leg, width of rump and width of pelvic and thigh area along with his dairy strength makes him a fine mating for **ELEVATION** and **ASTRONAUT** daughters. A cross that should produce outstanding results.

JET STREAM's second crop daughters are outstanding. The number of daughters in his production proof now totals 4208 and his daughters classified more than tripled. The dairymen milking **JET STREAM's** are very pleased with some two-year-olds milking over 90 lbs of milk per day. You can see why they are using him, again! You should too!

JET STREAM semen is available from your NEBA-Sire power professionals. Contact them today. Phone 717-836-3168 or 717-836-3127.
