DELTA — The farm community surrounding Delta will hold an "Old Fashion Country Day and Farm Tour Hayride" Saturday, June 21, 9 a.m. to 4 p.m., in conjunction with the celebration of the centennial anniversary of the incorporation of Delta in 1880.

"The purpose of the farm festival is to promote better understanding between the farmer and his urban neighbors," according to Kay Taylor, co-chairperson and a farm wife who lives near Airville. "The tours of the farm and exhibits will make it a fun day for all participants," she said.

The general public is in-

vited to take part in the scheduled events at no charge, according to Mrs. Taylor, who is representing the York County Farmers' Association. Margie Fifer is the other co-chairperson and is representing the Delta Centennial Committee.

Hayrides will be available to the general public to tour six Delta area farms. Other events include displays, special music, square dance exhibitions, a petting zoo and games for children, craft displays, movies and other activities. There will be country-baked goods available to purchase along with other food and refreshments.

"We have some 100 persons now involved in the planning including farmers, FFA and 4-H along with organizations in Delta" Mrs. Taylor said. "It's truly a community-wide effort."

Participants wishing to

take the hayride tours of Delta area farms can catch shuttle buses at the Delta Community Center, off State Route 851. There will be signs posted to give direction.

Here are the farms the general public will be touring:

David and Barbara

Stewart, dairy farm; Cooper and Marley Boyd, orchard; John Kush and Barbara Baldwin, III, beef and hog; Dave and Mary Catherine Thompson, dairy farm and milk jugger; Mel and Marge Fifer, strawberries and vegetables (pick your own), and Joseph and Lois Ailes and son, Eddie, hog farm.

MYERSTOWN — At a recent meeting of the Elco FFA chapter, election of officers for the 1980-81 school year were held.

The following officers were elected: Glenn Wenger, president; John Kline, vice-president; Troy Ulrich, second vice-president; Patti Heilinger, secretary; Dorothy Tice, assistant secretary; Jonathan Arnold, treasurer; Ken Erb, assistant treasurer; Irene Brown, reporter; James Bennetch, assistant reporter; Paul McQuate, sentinal; Robert Hogeland, assistant sentinal; Edward Kegerreis,

chaplain; Randy Hartranft, assistant chaplain; Donna Rabold, historian; Joel Fahnestock, parliamentarian.

Eight members from the chapter will be attending the FFA Activities Week from June 10-12 at Penn State. Those attending and the activity they will be participating in, are: Glenn Wenger, Lebanon County delegate; Irene Brown and Dorothy Tice, state chorus; Robert Hogeland, state band; James Bennetch, Leo Johnson, and Ken Erb, dairy judging; and Joel Fahnestock, small engines.

THINK TWICE

Many growers resist the idea of double cropping because of the pressure of time. It's time to think twice. With ORTHO PARAQUAT CL plus a residual herbicide you can actually harvest one crop and plant a second the same day. PARAQUAT is a fast-acting herbicide that kills a broad spectrum of unwanted weeds and grasses. You can plant land treated with PARAQUAT immediately. You plant right into the stubble of the preceeding crop with no fuel consuming plowing or discing.

The savings on fuel are sizeable. You also save on time, labor, and equipment usage costs. For best results, apply PARAQUAT with ORTHO X-77™ Spreader.

DANGER: PARAQUAT is highly toxic if swallowed and should be kept out of the reach of children. To prevent accidental ingestion, never transfer to food, drink, or other containers. Read the label carefully and follow all directions, danger statements, and worker safety rules. Restricted Use Pesticide. Use all chemicals only as directed.

CONTROL WEEDS IN ALFALFA WITH BUTYRAC-200

Apply 2 to 4 weeks after alfalfa emerges. Controls broadleaf weeds in seedling or established legumes. This remarkable selective action — killing many broadleaf weeds without affecting certain broadleaf crops — has been proven by research men and commercial growers throughout the country.
