Manure Handling Equipment

Model 400 Manure Elevator

Here's a whole new concept in manure handling! When properly installed at and below the edge of a liquid tight manure holding area, the Zook Model 400 elevator proves to be a simple and inexpensive way of handling manure

- Handles both liquid and semi-solid manure
- Few moving parts require almost no maintenance
- Corrosion resistant high strength Corten steel construction
- Self lubricating bottom end bearings

Installing the elevator below the holding area floor insures the best performance for removal of manure.
