# FARMER BOY INTRODUCES FRISTAMAT LTD. CO.

## FRISTAMAT FULLY AUTOMATIC FARM VENTILATION

1. FRESH AIR
2. MIXING

- Balanced ventilating system with recirculation
- Draughtless ventilation
- Constant room air motion.
- Constant temperature throughout the building
- No risk of cold downdraughts
- Unaffected by weather and wind conditions (no wall inlets)
- Adaptable for any shape of building
- The air volume can be adapted to suit varying stocking rates in the house
- Condensation - and corrosion-proof

The FRISTAMAT system has been developed specially for the ventilation of livestock accommodation, combining in one unit all the functions of a fully automatic ventilating plant: supply, exhaust, automatic temperature control and, if desired, heating and humidity regulation. Owing to its flexibility and regulating properties the system may be used in houses of widely differing sizes and construction, and for all kinds of animals.

The functions of the FRISTAMAT system are automatic so that the installation will only require a minimum of attention.

**▶ DON'T MISS THIS ◀**  
**THE FIRST FULLY AUTOMATIC  
 FARM VENTILATION SYSTEM IN THIS AREA.  
 PLAN NOW TO ATTEND THE OPEN HOUSE  
 ON SATURDAY, JUNE 14.**
